French Craft Goes Down In Sahara; 5 Americans Aboard

ALGIERS (AP)—A French airliner carrying 69 persons crashed in the Sahara today and Air France said there were no survivors.

At least five Americans were aboard.

Search craft found the wreckage smashed into lonely sand dunes of the Sahara about 75 miles north of the oil field of Edjele.

The plane had last reported at 1:10 a.m. when it was directly over Edjele.

An Air France spokesman said the mother, wife and three children of Alan Lukens, U.S. charge d'affaires in Bangui, Central African Republic, were aboard the four-engine plane.

Names of the passengers and crewmen were not available, but the Lukens were known to be aboard, he said. U.S. Embassy officials said Lukens apparently stayed in Bangui while his family took a vacation trip.

The Air France four-engine Super Constellation was bound from the Congo Republic to Paris.

Air France did not immediately announce a complete list of passengers. There were 61 passengers and 8 crew members aboard.

The plane went down in a desolate area known as the "Erg Oriental" near the joining of the Tunisian-Algerian and Libyan frontiers. Its first destined stop in France was Marseille.

Phone, Light Service Back After Storm

Electrical and telephone service in the area had been restored to normal today after Monday evening's "big blow" which inflicted heavy damage on the Tri-State area.

The rain and hail storm, driven by gusts of wind that reached an estimated 62 miles an hour in the Ohio Valley, caused major power shortages, interrupted telephone service and caused property damage estimated at $100,000. And there were further reports of damage.

Four Columbiana County residents were injured and the last has been released from the hospital.

Ohio Bell Telephone Co. reported service restored today to some 75 customers whose lines were damaged.

Ohio Power Co. pressed every available man into service to restore electrical service that was disrupted because of fallen television antennas and debris ripped loose by the strong winds.

The firm said major power line damaged were back in service by 3:40 a. m. Tuesday and lines short-circuited in isolated cases were restored by noon.

The storm struck heavily in the Waterford Park area, causing an estimated $20,000 damage to barns in the stable area, and roofs of the clubhouse and grandstand.

Two twelve-foot high wooden marker poles along the track were sheared off at the base by the whipping gale. The one-half mile pole and the three-quarter-mile pole were blown off and damaged the rail around the one-mile oval. The poles were imbedded in cement and were sheared off by the wind close to the ground.

2 Youths Held For $148,000 'Secret' Theft

Burglary 4 Weeks Ago Unreported By Ellwood City Man

NEW CASTLE — A $148,000 burglary at nearby Ellwood City and the arrest of a man accused of commiting it were reported simultaneously here Tuesday by State Police.

Thomas Houk, 20, of Beaver Falls, Tuesday was charged with burglary and Ronnie Claytor, 19, of Ellwood City, with being an accessory. Both pleaded innocent, and waived hearings and were held for the Grand Jury.

Houk has been lodged in Lawrence County Jail here without bond. Bail was set at $1,000 cash or a $2,000 house bond for Claytor.

Commissioner Frank G. McCartney announced that State Police are holding the pair for the burglary of the home of Cosmo S. Geniviva of Ellwood City.

McCartney said the burglary occurred four weeks ago but had not been reported to either city or State Police by Geniviva.

State Police said Geneviva said he was unware the money was missing.

The commissioner said Houck admitted the burglary and referred investigators to a garage in New Castle where State Police found $140,729.86 cash sorted in the trunk of a car.

Officers said Houck admitted obtaining the combination to the safe from Geniviva's young son.

Geniviva was identified as a discount retailer.

Officers said the money was in $50 and $100 bills. They estimated that Houck probably spent about $8,000.

Ruip Nabbed, Bond Is Set At $100,000

Gunman Captured By FBI; Will Face Numerous Charges

CLEVELAND (AP)—Richard C. Ruip, Akron gunman captured following a high-speed chase in which his car was riddled with shotgun blasts by FBI agents is in Cuyahoga County jail here today under $100,000 bond.

Captured Gunman Indicted In Hancock

Richard C. Ruip, 24, the Akron gunman being held in Cuyahoga County Jail in Cleveland, was indicted in April by the Hancock County Grand Jury for the $716 robbery of the Investors Loan Co. in Weirton Feb. 24.

He was being held in jail in Canton at the time the indictment was returned in New Cumberland, but he escaped April 11 by digging his way through a wall of the Stark County Jail.

Ruip, 24, demanded a preliminary hearing when arraigned before U.S. Commissioner H. A. Horn on charges of bank robbery and unlawful flight to avoid prosecution for burglary shortly after his capture Tuesday afternoon near Dover. Horn set the hearing for May 18 and ordered Ruip held under $50,000 bond on each charge.

Ruip, who had escaped from authorities three times since last September, was charged with the $5,200 holdup of the Waynesdale branch of the Peoples Trust & Savings Co. near Fort Wayne, Ind. April 17 in a warrant obtained by the FBI at Indianapolis Tuesday.

He was held on charges of breaking and entering, automobile theft and carrying concealed weapons when he dug his way out of the Stark County jail at Canton April 11.

Ruip was wounded in the little finger of his left hand during the chase on Ohio 8. He was captured after his car cracked up when he lost control of it following the shotgun blasts.

Floods Add To Misery In Central U.S.

Thousands Driven From Homes And Sections Isolated

By The Associated Press

Damaging spring floods poured across lowlands of the nation's midsection today, bringing more misery and discomfort to thousands.

To many in the river towns, it was the seasonal back-breaking job of fighting the rampaging waters.

The worst flooding appeared in southern Illinois, Missouri, Indiana, Kansas and Kentucky. Thousands were homeless. Some communities were isolated. There was fear in some areas of typhoid fever from contaminated water. Some major and many secondary roads were closed. Business slowed in many of the flood-stricken towns and halted in some.

But there were a few bright spots in the murky water picture. No rain splashed across the drenched flood belt and fair weather was the immediate outlook for most areas. The worst appeared over in some sections.

In Ohio and Oklahoma, many streams and rivers were bank full but the threat of major flooding appeared easing.

As the rains halted in the midlands, soaked with heavy downpours for four or five days, stormy weather spread into eastern sections of the country.

Rain, hail and strong winds Tuesday hammered areas in New York, Virginia, Vermont, Florida, Pennsylvania, North Carolina and the District of Columbia. The gusty winds caused property damage in some places.

Thousands of persons in river towns in the flood-stricken sections joined in the fight to stem the surging waters.

Soldiers, sailors, civil defense workers, school boys and women worked to hold back the muddy waters from lapping into the lowland homes or spreading into business districts. The Red Cross and the Salvation Army were at the flood scenes to give aid and comfort and shelter.

New Officer Starts Duties

K. J. Montgomery Named To Vacancy

Kenneth J. Montgomery of Oakwood Ave., Pleasant Heights, has started duty as a police department patrolman following his appointment by Safety-Service Director Lee Copenhaver to fill the vacancy created by the recent resignation of Patrolman Milton L. Fowler.

Montgomery, 29, has been assigned to a downtown foot beat, Chief Americo Radeschi said. He formerly was employed in the open hearth department at the Midland Works of the Crucible Steel Co., where he worked 10 years. He served in the Navy from 1954 to 1956.

Montgomery is married and has a son, 4. He was named to the post from a list certified by the Civil Service Commission. His appointment brings the police department up to its full strength of 21 patrolmen and five officers.

Leonard Richard was returned to the department a few weeks ago as a patrolman, filling the vacancy caused by the resignation of Richard Higgins. Richard had been furloughed about two years ago in a departmental cutback.

E. L. Wheatley of East Liverpool has been re-elected to his third full term as president of the International Brotherhood of Operative Potters, nine other incumbents have been returned to the Executive Board, one has been advanced to a higher office and another was added to the union's list of 12 officers, a canvassing committee reported late Tuesday night when it completed tabulation of May 2 election returns.

In the two changes in the Executive Board, William Rail of Richmond, Calif., was advanced to the second vice presidency — succeeding George Pace of Huntington Park, Calif. — and Bernie Rowbottom of Redlands, Calif., was named to Rail's former post. Pace did not seek re-election because of illness.

NATO's Resources Seen Adequate To Stem Communists

OSLO, Norway (AP) — North Atlantic Treaty Organization foreign ministers promised today to preserve the freedom of the 2½ million residents of West Berlin and to meet the Communist bloc's challenge throughout the world.

In a communique ending their three-day spring meeting, the ministers expressed confidence that the combined resources of NATO are adequate to prevent Communist aggression.

"In the world as it is today the unity and strength of the Atlantic alliance is essential to peace and the survival of liberty," the communique said.

"Its collective resources—moral and material alike—are fully adequate to this task. Confident in their strength, in the will of their peoples, and in the truth of the ideals they uphold, the 15 Atlantic nations dedicate themselves anew to building a world free from the false doctrine of continuing and inevitable conflict."

This represented a rejection of Soviet Premier Khrushchev's doctrine of so-called peaceful coexistence.

The communique stressed that the NATO countries are willing to negotiate just settlements of international problems but do not intend to be bullied.

The communique made no specific mention of Laos, the Congo or Cuba but referred in general terms to world trouble spots.

The ministers asked the NATO Permanent Council to study all aspects of the military structure of the alliance "with a view to improving its deterrent and defensive strength."

Completion of the communique was carried out quickly to allow some ministers to rush off to Geneva to participate in an East-West conference on Laos.

U.S. Secretary of State Dean Rusk gave the conference a psychological lift Tuesday with a pledge to back up the defense of Western Europe with Polaris nuclear submarines.

Rusk told America's 14 allies in the North Atlantic Treaty Organization that five Polaris submarines would be assigned to the alliance by 1963 and perhaps more later.

State Budget Slash Fought By Democrats

Say GOP Curtailing Ohio Vital Services; Success Held Slight

COLUMBUS, Ohio (AP)—Minority Democrats, contending that Republicans are curtailing important state services by proposing to cut almost $25¼ million from the 1961-63 state budget, are battling back with amendment proposals.

But there is little likelihood they will have much success with a GOP majority determined to avoid any move toward increased taxes. About the only effect, apparently, will be to delay a House vote on the budget bill.

Republicans had hoped to bring the bill to a vote Thursday. Now it seems likely it won't come up until early next week. The GOP majority is expected to speed it along to the Senate, also Republican-controlled, where further fund cuts may be attempted.

At the moment, the measure still is before the House Finance Committee. Democrats offered nearly a dozen amendments Tuesday night, most designed to restore some of the fund cuts, particularly in the departments of welfare and mental hygiene-correction. All were beaten down by the Republican majority.

However, committee members did approve—without dissent—adding $200,000 for the two-year budget period for training those who are out of work because of automation, $150,000 for a House-approved safety center at Ohio State University and $885,000 for state universities to cover deficits from charging the same tuition at branch campuses as at the main campus.

Kennedy Gets Notification Of 'Friction'

State Department, Senate's Foreign Relations Involved

WASHINGTON (AP) — President Kennedy is on notice that there is some potentially annoying friction in the relations of his State Department with the Senate Foreign Relations Committee.

If Kennedy needed any new evidence of this, he got it Tuesday with the denunciation by Chairman J. William Fulbright, D-Ark., of what the senator called the "idiotic policy" of shifting ambassadors around.

The system of rotating diplomats from one post to another long has peeved Fulbright and other members of the committee. They have complained that an ambassador hardly gets settled down to his job before he is sent packing in a couple of years to a new and possibly unfamiliar assignment.

About 40 ambassadors appointed by former President Dwight D. Eisenhower are still on the job.

There have been a number of minor clashes on the various fighting fronts during the past week.

Kennedy Gets Notification Of 'Friction'

State Department, Senate's Foreign Relations Involved

WASHINGTON (AP) — President Kennedy is on notice that there is some potentially annoying friction in the relations of his State Department with the Senate Foreign Relations Committee.

If Kennedy needed any new evidence of this, he got it Tuesday with the denunciation by Chairman J. William Fulbright, D-Ark., of what the senator called the "idiotic policy" of shifting ambassadors around.

The system of rotating diplomats from one post to another long has peeved Fulbright and other members of the committee. They have complained that an ambassador hardly gets settled down to his job before he is sent packing in a couple of years to a new and possibly unfamiliar assignment.

About 40 ambassadors appointed by former President Dwight D. Eisenhower are still on the job.

$5 Fine Suspended

LISBON — Gerald L. Boring, 41, of Box 371, Lisbon, received a suspended $5 fine on a charge of operating a motor vehicle without a muffler at a hearing Tuesday before County Judge James L. MacDonald. In another State Highway Patrol case, Henry G. Davis Jr., 24, of Kensington was fined $10 and costs for failing to stop within the assured clear distance.

Storm

(Continued from Page One)

A spokesman at the track said repairs will be started on three of the barns seriously damaged after the area is inspected by insurance adjustors and contractors.

In newly-reported damage, the wind also ripped away a 60-x-40-foot portion of metal roof off the one-story S. C. Williams Co. building at the foot of Jackson St. The wind also blew out some windows, the corrugated paper box manufacturing firm said.

Rain damaged some paper in a storage room after the roof had been lifted by the wind. A temporary roof was installed until complete repairs can be made.

The Globe Brick Co. at Kenilworth resumed normal operations about noon Tuesday. The firm suspended production when the storm blew a roof of a shed onto an electrical line, disrupting service to the clay mine.

At the Presbyterian Camp at Grimms Bridge, also damaged extensively by the storm, insurance representatives were to inspect the property today so that repairs can be started.

Mrs. Donald Lautzenheiser of near Kensington, injured when the family's barn collapsed, killing one of their 35 cattle, was released yesterday from Salem Central Clinic.

Elkton Pupils Return After School Repairs

ELKTON — Some 120 students at the Elkton School, dismissed Tuesday because the water pump motor was burned out by lightning, returned to class today following installation of a new motor.

Lightning entered the school through a power line during Monday night's severe storm, and burned the motor wiring. Students were dismissed at noon yesterday because of the lack of water.

Parking Tickets 'Home To Roost' For Motorist, 28

Richard L. Lisk, 28, of Dixonville is scheduled for a Municipal Court hearing Thursday morning on charges he ignored six old parking tickets — including three that came home to roost again after he placed them on the windshield of another auto.

Lisk was served with an affidavit Tuesday alleging he failed to pay the penalty for a ticket issued April 4 for an overtime violation on St. Clair Ave. Attached to the affidavit are five other tickets. The charge against him was signed by "Meter Maid" Joan Starr.

"Meter Maids" said Lisk's auto was ticketed April 29 in Diamond Alley, a non-parking area. A short time later, an irate woman motorist appeared at the office and demanded to know why her car had been ticketed three times in rapid succession.

Surprised at the unusual action, the "Meter Maids" checked the license numbers on the tickets. They found all three bore the tag number of Lisk's car—the one issued that day and others issued on April 18 and April 21.

Lisk posted a $32.50 bond to await his hearing.

Cooper, both of Youngstown were indicted with her but their trials will be handled separately, according to Prosecutor G. William Brokaw.

During business conducted by Kevin O'Brien, grand knight, the group decided to open nominations for new officers at the meeting May 23 and close at the session June 6, when officers will be elected.

O'Brien and James McGowan were named as the committee to represent the council in the planning of a parish rally of the St. Aloysius Church this summer.

A committee will be appointed in the near future for the celebration of the 61st anniversary of the local council June 10.

Hearing Opens On Gas Increase

Hearings opened today before the Public Utility Commission in the State Building at Pittsburgh on the Peoples Natural Gas Co.'s Nov. 29 request for a rate increase.

Stuart E. McMurray, treasurer, said the utility is seeking a 4 per cent rate adjustment "to aid the firm in meeting the sharply increased operating costs it has encountered since 1958 when Peoples last received an increase to cover operational costs.

Periodic rate adjustments since 1958 were required to cover the cost of gas purchased from wholesale suppliers, he said.

The requested increase, originally scheduled to be effective Feb. 1 this year, was suspended by the PUC for a six-month period to Aug. 1 for study and hearings.

Peoples Gas is also seeking PUC permission to initiate bi-monthly meter reading and to pass along to their consumers $225,432 saved by the reduction in meter reading costs.

McMurray said that over $1,750,000 of the new revenue of $3,020,137 sought would go for federal and Pennsylvania income taxes.

For a typical general service customer, the increase would average about 17 cents a month. Heating customers would pay an average 71 cents additional.

Peoples Gas serves 270,000 customers in 15 Western Pennsylvania counties, including Beaver County and Midland.

No Sacrifice, Just Decency

While Cmdr. Shepard was rocketing through space last Friday, witnesses were lined up in Washington to tell the Senate Investigating Committee how squabbles, tiffs, misunderstandings, greed and bad legislation had slowed up the U.S. missile program by as much as six months.

In response to day-after-day testimony of this nature, President Kennedy let it be known he had asked Secretary of Labor Arthur J. Goldberg to cooperate with the Senate investigators "to see if we can obtain a reasonable, consistent effort by labor and management in the field of production of our missile programs."

This should be a challenging assignment for Secretary Goldberg. It will give him a chance to prove in behalf of the Kennedy administration that its political obligation to labor unions will not keep it from coming to grips with a situation that has inflamed public opinion.

The American people are told, on one hand, that they must do something—anything — everything to catch up to the Soviet Union in space exploration. Then they are told, on the other hand, about unionized workers at places like Cape Canaveral taking apart rockets previously assembled, to put them back together again. Or in some instances demanding pay for taking them apart though not actually taking them apart at all.

There is no demand for sacrifice, just decency. It will be interesting to hear how Secretary Goldberg phrases it and how he places responsibility. Sen. McClellan, chairman of the committee, has surmised that the United States might have beaten the Soviet Union into space if its program hadn't been delayed by obstructionism on the part of American unions.

After The Prom

High school prom time serves to call attention once more to the fitting part played by properly-supervised post-prom parties.

Through the cooperation of the various groups which sponsor such events, the students are given an opportunity to enjoy themselves in a pleasant atmosphere without all the problems that used to accompany the annual "trip out of town".

In most cases the girls and boys have a hand in setting up a program which has the greatest appeal to them. And the "check" is well within reason for the entire affair.

Far more happy, too, are the parents. One of their big prom headaches, travel on busy highways to out-of-town night spots, is eliminated by the "at home" entertainment.

Post-prom parties make a lot of sense.

Left Their VIP Hats At Home

Everybody who wasn't talking about Cmdr. Shepard and his lovely wife Monday was arguing about the lady innkeeper who told off a Supreme Court judge, a U.S. senator and a member of President Kennedy's Cabinet on Sunday.

The issue was the lady's behavior. Should she have been rude to Mr. Justice Douglas, Senator Douglas and Interior Secretary Udall? Or should she have been sweet and deferential when they and their hiking companions came in out oft he rain and dripped water on her floor?

She did not know that notables were in her inn. All she saw was a crowd of soaking-wet hikers who had moved in on her accommodations for paying guests and were about to take over the place for a free lunch.

This is another in an endless succession of examples of the need for visible badges of distinction so Americans can tell notables from unnotables. Embarrassment happens all the time to notables whose faces are not notable enough to signify their notability at a glance. Even a notable with notable features is in danger of being treated as an unnotable if he or she forgets to take off his or her dark glasses or to strike the trademark pose which gives away the secret.

There may have to be a law that makes all notables indicate their notability. And who will determine who is notable and who isn't? Why the notables, themselves. Who else? Otherwise, they might as well be unnotables.

Mrs. John T. Reges has brought a momentous question to attention: Should an American tell off a notable if he can't tell a notable from an unnotable without a program?

A Helping Hand

There is no more appropriate time to give recognition to a deserving group — the East Liverpool Hospital Auxiliary — than during National Hospital Week, now under way.

Its latest project, completed at an expense of $12,333, was the renovating of five semi-private and ward accommodation rooms at City Hospital.

This is only one of many things that the Auxiliary has done over the years to make things more comfortable for hospital patients. Its record speaks for itself.

Rate-Making Under Review

The death of the bill in the General Assembly to change the utility rate-base law in Ohio should not, and probably does not, mean the issue is closed.

Efforts to revise the "reconstruction cost new, less depreciation" (RCN) formula have cropped up in every legislative session since the late 1940s. Utility spokesmen have always been successful in defeating them, but those who favor a change show no signs of giving up.

That is the way it should be. Regulation of public utility services and rates is something of vital concern to customers and to the public officials whose job is to protect the interests of customers.

It is safe to say the utilities would not have been able to fight off change with such regularity if the case against RCN were clear-cut. Many legislators who have voted to maintain the present formula just have not been persuaded that it has worked such a hardship on consumers.

On the other hand, the fact that the effort to change the formula continues with equal regularity indicates it may work some injustices. Anti-RCN forces were able to cite some impressive evidence of their own.

ONE EXPLANATION for the continued fight may lie in the fact that not all utilities in Ohio have equal reputations for performance and charges. This state is blessed with some of the outstanding utility companies in the nation, it also has some that fall short of that standard.

The question, then, is whether the Public Utilities Commission of Ohio has enough discretion under the law to distinguish between the two categories and determine consumer rates accordingly.

The utility spokesmen before legislative committees contend that the commission does have sufficient discretion. Opponents of RCN claim it does not.

This brings up the question of whether the consumers served by the less-than-ideal companies are adequately represented in the legislative hearings. The utilities that carry the fight in the General Assembly are generally the big, efficient ones that do the best job.

Nevertheless, it must be assumed that the legislators who represent the people in the legislature are interested in serving the public's cause, and that each lawmaker will vote according to his knowledge of utilities in his area.

IF OHIO'S utility companies are doing a good job, they deserve good earnings. When the evidence is clear that too many of them are getting a break from RCN at the expense of customers, the law should be changed.

The rate-making process is too complex to make a decision easy, and the politics in the matter necessarily makes decisions even more difficult.

That is why it is desirable for the utility rate-base law to come before the General Assembly regularly.

'Rich And Poor'

In times of peace Cuba traditionally has captivated its visitors.

Christopher Columbus found it "a scene of enchantment" that "a thousand tongues would not suffice to describe." More recently, First Deputy Premier Anastas Mikoyan of the Soviet Union called it a "paradise."

Cuba is indeed beautiful. But the 720-mile-long island, lying less than 100 miles from the Florida Keys, has had a history of almost unparalleled violence from the near extermination of the Indians by the Spanish conquerors to the grim work of Fidel Castro's firing squads.

The cause of much of the turmoil was suggested by American sociologist Lowry Nelson, who studied rural Cuba before Castro's advent.

"Cuba presents a paradox on a grand order," he said. "Nature is bountiful. Climate and soil combine to provide extraordinary fruitfulness with even nominal care. Yet the masses of Cuba's rural population are impoverished, ill housed, ill fed and poorly clothed."

A Cuban rancher put it more simply: "The land is very rich and the people very poor."

Opinions differ on the causes of the poverty, but the search for a solution has made attending political meetings a major pastime of Cubans.

Kennedy Warns Economy's Leaders

By Victor Riesel

At 9:45 a.m. on May Day, as Sovietized armies were parading around their own world and parts of ours to celebrate their revolutions, President John Kennedy walked out of his office and into the pledged-to-secrecy session of his 21-man Labor-Management Advisory Committee. For 15 minutes he spoke more grimly than he has to any group of men except the National Security Council.

Victor Riesel

The President, referring mostly to Laos, said, in effect, we are just at the beginning of intense Soviet pressure.

He told the industrialists and labor leaders that he expected no letup for the next 10 years. All he could see ahead were new Cubas, new Laoses, new Congoes.

The implication was that at no one moment would he be surprised if heavy military action were required. He would count on this group to prevent industiral civil war and keep the country prosperous, with the highest, smoothest production possible.

He added that heavy unemployment is "intolerable."

THOSE WHO LISTENED that morning are sophisticates.

They — men such as Inland Steel's Joseph Block, IBM's Thomas B. Watson, Jr., Henry Ford II, AFL-CIO president, George Meany and vice president, Walter Reuther—administer vast, intricate organizations.

To such leaders John Kennedy would not give a time-wasting shower room rah-rah talk.

When questioned later in their home cities, some members of the group literally said. "My lips are sealed." And they said it in such tones that the phrase was neither corny nor trite.

The session was opened by a 10-minute talk by Secretary of Commerce Luther Hodges. He had delayed his trip to Europe to sit in on the parley — the only labor-management conference to survive two sessions.

The genial dean of Mr. Kennedy's Cabinet said there no longer was any doubt that the government itself must be responsible for moves to create re-employment for the "structurally unemployed."

This is the 20th century, said he, and not the 18th. But in the long run, he went on, the health of the nation depends on helping industry to modernize itself.

He pointed out that it would take over $95 billion to accomplish this. He recognized that modrific automation and technological improvements which would speed production.

SOMEHOW some formula will have to be devised to put people back to work despite the vast impact of almost a $100 billion worth of new automatic labor-saving factories and mills.

There are those on the 21-man panel who said later that a most significant development had taken place in the room — a development which was making unobserved history.

The committee was becoming a private section of the government. It could find such a peace formula to keep labor and industry from warring with each other while production sped.

One committee member observed that the room was filled "with a sense of maturity in economic affairs, though these are not simple problems."

Another said he believed that the President now saw the group as a sort of civilian "executive committee" of the nation itself. He noted that this panel was a "terrific combination for keeping the dialogue going."

This, he said, "was more important than formulating any immediate agreement on any immediate matter. And the dialogue was kept going, this time mostly by Walter Reuther, who in a few days would be heading for an international metal workers (auto and steel) global parley in Rome.

REUTHER, who the three previous days in Detroit had had some strong things to say about the nation's auto manufacturers, sat not far from Henry Ford.

The auto union chief talked quite a bit about the impact of automation and the need for a shorter work period to create more jobs — even if it had to be done by government action.

There was no agreement on how to meet the problem of acquiring the speed to far outproduce the Soviet bloc and help the parched, eager underdeveloped world while keeping our own world at home fully employed. But neither was there rancor.

They agreed to meet again on June 5. And at the noon break paid for their own lunches. This is a sign of the times. There is to be no free loading.

No Need For Speed

By James Marlow

WASHINGTON

President Kennedy, speedy in making good on some campaign pledges, is not backing up his promise to promptly offer and fight for a broad civil rights program.

Before he was elected, he was all for new civil rights legislation in a hurry. Now, after almost four months in office, he sees no need for speed.

Last September he promised to make a bill "embodying all the pledges of the Democratic platform" on civil rights a "first order of business" when he took office. He named two Democrats to prepare it.

This week these two—Sen. Joseph S. Clark (Pa) and Rep. Emanuel Celler (NY) — offered their civil rights package in Congress.

What was the administration's reaction?

White House news secretary Pierre Salinger said Tuesday the Clark-Celler offerings "are not administration-backed bills." He said the measures were "introduced by them and are their bills."

Salinger said Kennedy had made clear that "he does not consider it necessary at this time to enact new civil rights legislation." He added that Kennedy's position has been to exercise all possibilities under legislation already on the books and to employ powers which the executive department possesses.

The fact that the administration didn't push for new civil rights laws so far this year must have had a pacifying effect on Southern Democrats in Congress where Kennedy hasn't had too much trouble getting his other programs through up till now.

In a Congress as conservative as this one, antagonized Southerners—teaming up with conservative Republicans—could have done a wrecking job on Kennedy programs awaiting congressional action. If he came out now for powerful civil rights proposals, and really fought for them, those other programs could get royally fouled-up by the Southerners' war on civil rights.

Yet, this is what Kennedy said last Sept. 9 in Los Angeles when he was campaigning for the presidency:

"The president must give us the legal weapons needed to enforce the constitutional rights of every American. He must draft the programs — transmit them to Congress and fight for their enactment, taking his case to the people if Congress is slow-acting.

"Much legislation is needed. We must continually strengthen the legal framework which will allow us to move toward economic, educational and political equality.

"Such legislation is already being prepared. I have asked Sen. Clark and Congressman Celler to prepare a bill embodying all the pledges of the Democratic platform, and that bill will be among the first orders of business when a new Congress meets in January."

These promises got a lot of attention at the time, particularly when the Democrats were seeking the Negro vote in the large Northern cities. But to date the administration has not backed any civil rights program.

Frontier Dreamers

Have 'Intellectuals' Failed Kennedy?

James Thurber's delightful, day-dreaming Walter Mitty, who imagined himself dashingly engaged in thrilling exploits, had nothing on certain intellectuals who recently found themselves participating in the Cuban affair. But when the near make believe of a good many administration advisers evaporated, it was not to face the humdrum of marital conflict but to confront an accurate barrage of criticism, never dreamed of in the Harvard Yard or beneath the elms of college campuses.

A scramble to shallow, exposed fox holes of excuse followed. It is to Mr. Kennedy's credit that he proclaimed his own responsibility. But there is every reason to believe that he will not rely as heavily upon these men as before.

There is sufficient evidence in a number of developments to convince the politician in Mr. Kennedy that his intellectual side and those who flatter it have failed him.

Following his inauguration, numerous men who had sparkled on the banks of the Charles in Cambridge moved to the banks of the Potomac. They had contributed unsparingly during the campaign.

The election won, broad fields of national and world affairs and the administration of the executive branch were ready to be fertilized by their teeming brains.

MR. KENNEDY'S supreme confidence in his personality and political prowess was fed by these men. His administration was to be highly personalized.

The intellectuals who surrounded him deplored the methodical, careful conduct of affairs under President Eisenhower. Informal, hurried conversations took the place of staff work and meetings of the Cabinet and the National Security Council, which were regarded as a "waste of time."

So old heads made way for eggheads. Experience made way for theories. Professionals made way for amateurs.

The new group was to bring something new to government — something worked out in book-lined studies, political science classrooms and in brief vacation trips abroad.

Most unfortunately, a misreading of history by those who were to give the new President's administration a "sense of history" has already led to grievous consequences.

Mr. Khrushchev would cooperate in "easing cold-war tensions," the professors believed. But they had been hoodwinked by the dictator when they visited Russia last year.

Greater shipments of military equipment and technical advisers to Laos and Cuba, pressure in South Viet Nam, outrageous behavior and stronger statements on disarmament have been Mr. Khrushchev's response to Mr. Kennedy's conviction that he could succeed where others have failed.

Another president of massive persuasion at home, Franklin D. Roosevelt, had found that his native talents could not be exported to match the Marxian dialectical approach of Joseph Stalin.

The full facts behind the Cuban debacle are not being released. Military men, unlike the liberal intellectuals who are unaccustomed to taking orders and recoil at having a "lid" closed over them, have not been talking.

REPORTS that the Joint Chiefs of Staff were a party to such an unrealistic "invasion" plan are highly questionable.

Closer to the truth, perhaps, is a report that when a congressman asked Gen. Lemnitzer whether the JCS had approved the venture, the President cut in, saying, "The JCS were neither asked to approve or disapprove; they were simply informed of plans."

Delegation of military matters to a group of rank amateurs in the Cuban affair can be compared with certain political appointments to Army commands during the Civil War.

The Associated Press recently reported signs of "deteriorating relations" between Congress and the White House. This is in part due to resentment which springs from what legislative leaders "regard as meddling by Kennedy administration strategists."

To blend the efforts of practical men who have years of experience and strong opinions of their own with the theoretical new group of advisers is a challenge to the President.

His reliance may well shift to the former, while many of the latter return to their university chairs.

Minority Of One

By Truman Twill

Some of my best friends are sailors. Or perhaps I should say they are water-borne. They have joined the boat-owning throng.

We used to gasp with astonishment when we saw pictures of boats apparently sailing through the air on canals in Holland because the water level was higher than the level of the surrounding countryside. This optical illusion now is commonplace in the United States.

Boats form an endless procession on every highway. They go sailing over bridges and up the sides of hills. There is a question whether some of these boats ever actually get into the water, because they appear to put in all their time skimming through the countryside.

I'll never join the boat-owning throng. There are 11 good reasons. The first nine are not important. No. 10, however, is of considerable importance. I wouldn't consider owning a boat that would make me seasick if the water was rough, and I have no chance of owning one so large this wouldn't happen.

The other reason, never before disclosed, is even more personal.

It happened in the late part of World War II. There was a project afoot to give some ambulant convalescent from a veterans' hospital an outing. It grew into a pretty hairy affair.

A group of armchair generals and shoreside admirals had been formed to give the wounded veterans anything they wanted and what they wanted most was a chance to make uninhibited and unlimited whoopee. The two heroes assigned to my care went into celebrating orbit and stayed that way until the outing ended and they were on their way home to the hospital, the worse for wear.

One of my boys was wearing a full length cast. In the course of events that afternoon, he allowed as to how he was a little old mountain boy and would purely appreciate a boat ride. So saying, he pointed to a boat with an outboard attached and some fool said, "Go ahead, take the boy for a boat ride."

How it happened, I cannot tell. But that boy with the cast on his leg, that little old mountain boy, planted himself in the stern, pulled the starter rope and his buddy and I started the wildest ride of our lives.

The kid knew nothing about steering a boat and still less about caution. He ran that boat hither and yon at full throttle, scaring the life out of every other boater on the lake until the novelty of the thing wore off and he got sleepy.

He let it be known he couldn't swim, which would have been out of the question with that heavy cast anyway. His buddy couldn't swim, either, he declared, and I was too stricken with fear to talk. I can't even float.

It took more than a half hour to use up that little old mountain boy's enthusiasm and twice a minute I promised myself if I survived never to get in a boat again if Providence spared me.

That is Reason No. 11 why I never will join the boat-owning throng.

If I can stick by my resolution, this will make me a minority of one in no time. I will be the only American living who does not own a boat. I may be the only one now.

Center Of It All

The new population center of the United States is near the appropriately named city of Centralia, in southern Illinois.

As determined by the 1960 census, it is 57 miles west of the 1950 point near Olney, Illinois, and 701 miles west of the 1790 site.

Private surveyors using the Census Bureau's latitude and longitude findings unofficially have pinpointed the new center on a farm 6½ miles northwest of Centralia.

Soon the Coast and Geodetic Survey officially will designate the spot and set up a permanent marker. If usual practice is followed, a monument will be erected later on a near-by public highway and the event will be observed at ceremonies attended by state and federal officials.

Locating the shifting center of population is a complex mathematical process. Its object is to establish the geographic point at which perfect balance would result if the country were a plane on which all inhabitants weighed the same and affected the center in proportion to their distance from it.

No Sacrifice, Just Decency

While Cmdr. Shepard was rocketing through space last Friday, witnesses were lined up in Washington to tell the Senate Investigating Committee how squabbles, tiffs, misunderstandings, greed and bad legislation had slowed up the U.S. missile program by as much as six months.

In response to day-after-day testimony of this nature, President Kennedy let it be known he had asked Secretary of Labor Arthur J. Goldberg to cooperate with the Senate investigators "to see if we can obtain a reasonable, consistent effort by labor and management in the field of production of our missile programs."

This should be a challenging assignment for Secretary Goldberg. It will give him a chance to prove in behalf of the Kennedy administration that its political obligation to labor unions will not keep it from coming to grips with a situation that has inflamed public opinion.

The American people are told, on one hand, that they must do something—anything — everything to catch up to the Soviet Union in space exploration. Then they are told, on the other hand, about unionized workers at places like Cape Canaveral taking apart rockets previously assembled, to put them back together again. Or in some instances demanding pay for taking them apart though not actually taking them apart at all.

There is no demand for sacrifice, just decency. It will be interesting to hear how Secretary Goldberg phrases it and how he places responsibility. Sen. McClellan, chairman of the committee, has surmised that the United States might have beaten the Soviet Union into space if its program hadn't been delayed by obstructionism on the part of American unions.

After The Prom

High school prom time serves to call attention once more to the fitting part played by properly-supervised post-prom parties.

Through the cooperation of the various groups which sponsor such events, the students are given an opportunity to enjoy themselves in a pleasant atmosphere without all the problems that used to accompany the annual "trip out of town".

In most cases the girls and boys have a hand in setting up a program which has the greatest appeal to them. And the "check" is well within reason for the entire affair.

Far more happy, too, are the parents. One of their big prom headaches, travel on busy highways to out-of-town night spots, is eliminated by the "at home" entertainment.

Post-prom parties make a lot of sense.

Left Their VIP Hats At Home

Everybody who wasn't talking about Cmdr. Shepard and his lovely wife Monday was arguing about the lady innkeeper who told off a Supreme Court judge, a U.S. senator and a member of President Kennedy's Cabinet on Sunday.

The issue was the lady's behavior. Should she have been rude to Mr. Justice Douglas, Senator Douglas and Interior Secretary Udall? Or should she have been sweet and deferential when they and their hiking companions came in out oft he rain and dripped water on her floor?

She did not know that notables were in her inn. All she saw was a crowd of soaking-wet hikers who had moved in on her accommodations for paying guests and were about to take over the place for a free lunch.

This is another in an endless succession of examples of the need for visible badges of distinction so Americans can tell notables from unnotables. Embarrassment happens all the time to notables whose faces are not notable enough to signify their notability at a glance. Even a notable with notable features is in danger of being treated as an unnotable if he or she forgets to take off his or her dark glasses or to strike the trademark pose which gives away the secret.

There may have to be a law that makes all notables indicate their notability. And who will determine who is notable and who isn't? Why the notables, themselves. Who else? Otherwise, they might as well be unnotables.

Mrs. John T. Reges has brought a momentous question to attention: Should an American tell off a notable if he can't tell a notable from an unnotable without a program?

A Helping Hand

There is no more appropriate time to give recognition to a deserving group — the East Liverpool Hospital Auxiliary — than during National Hospital Week, now under way.

Its latest project, completed at an expense of $12,333, was the renovating of five semi-private and ward accommodation rooms at City Hospital.

This is only one of many things that the Auxiliary has done over the years to make things more comfortable for hospital patients. Its record speaks for itself.

Rate-Making Under Review

The death of the bill in the General Assembly to change the utility rate-base law in Ohio should not, and probably does not, mean the issue is closed.

Efforts to revise the "reconstruction cost new, less depreciation" (RCN) formula have cropped up in every legislative session since the late 1940s. Utility spokesmen have always been successful in defeating them, but those who favor a change show no signs of giving up.

That is the way it should be. Regulation of public utility services and rates is something of vital concern to customers and to the public officials whose job is to protect the interests of customers.

It is safe to say the utilities would not have been able to fight off change with such regularity if the case against RCN were clear-cut. Many legislators who have voted to maintain the present formula just have not been persuaded that it has worked such a hardship on consumers.

On the other hand, the fact that the effort to change the formula continues with equal regularity indicates it may work some injustices. Anti-RCN forces were able to cite some impressive evidence of their own.

ONE EXPLANATION for the continued fight may lie in the fact that not all utilities in Ohio have equal reputations for performance and charges. This state is blessed with some of the outstanding utility companies in the nation, it also has some that fall short of that standard.

The question, then, is whether the Public Utilities Commission of Ohio has enough discretion under the law to distinguish between the two categories and determine consumer rates accordingly.

The utility spokesmen before legislative committees contend that the commission does have sufficient discretion. Opponents of RCN claim it does not.

This brings up the question of whether the consumers served by the less-than-ideal companies are adequately represented in the legislative hearings. The utilities that carry the fight in the General Assembly are generally the big, efficient ones that do the best job.

Nevertheless, it must be assumed that the legislators who represent the people in the legislature are interested in serving the public's cause, and that each lawmaker will vote according to his knowledge of utilities in his area.

IF OHIO'S utility companies are doing a good job, they deserve good earnings. When the evidence is clear that too many of them are getting a break from RCN at the expense of customers, the law should be changed.

The rate-making process is too complex to make a decision easy, and the politics in the matter necessarily makes decisions even more difficult.

That is why it is desirable for the utility rate-base law to come before the General Assembly regularly.

'Rich And Poor'

In times of peace Cuba traditionally has captivated its visitors.

Christopher Columbus found it "a scene of enchantment" that "a thousand tongues would not suffice to describe." More recently, First Deputy Premier Anastas Mikoyan of the Soviet Union called it a "paradise."

Cuba is indeed beautiful. But the 720-mile-long island, lying less than 100 miles from the Florida Keys, has had a history of almost unparalleled violence from the near extermination of the Indians by the Spanish conquerors to the grim work of Fidel Castro's firing squads.

The cause of much of the turmoil was suggested by American sociologist Lowry Nelson, who studied rural Cuba before Castro's advent.

"Cuba presents a paradox on a grand order," he said. "Nature is bountiful. Climate and soil combine to provide extraordinary fruitfulness with even nominal care. Yet the masses of Cuba's rural population are impoverished, ill housed, ill fed and poorly clothed."

A Cuban rancher put it more simply: "The land is very rich and the people very poor."

Opinions differ on the causes of the poverty, but the search for a solution has made attending political meetings a major pastime of Cubans.

Odd Facts

Highest point in the U. S. is Mt. McKinley, in Alaska. Lowest point is in Death Valley, California. Most northern point is Point Barrow, Alaska. Most southern point is LaLae, Hawaii. Most eastern point is West Quoddy Head, Maine. Most western point is Kure Island, Hawaii.

According to one recent survey, 33.5 million American families now spend about 2.3 billion man-hours per week watching television. This is more than the amount of time devoted to earning a living in the same households—1.9 billion man-hours.

There is no record as to who first ate eggs in the history of the world, but they have been used for food since ancient times. Eggs are mentioned in the Bible in the Book of Job — "Is there any taste in the white of the egg?"

The first jet battle in history took place on Nov. 8, 1950, when four U.N. jets were attacked by eight to 12 Communist jets near Sinuiju, Korea. One enemy jet was reported downed, and no U.N. losses.

Two of the greatest "writers" in history, Homer and Socrates, never wrote a line. Since neither of these two men could read or write, their entire output was committed to memory.

Frontier Dreamers

By Raymond Moley

Have 'Intellectuals' Failed Kennedy?

James Thurber's delightful, day-dreaming Walter Mitty, who imagined himself dashingly engaged in thrilling exploits, had nothing on certain intellectuals who recently found themselves participating in the Cuban affair. But when the near make believe of a good many administration advisers evaporated, it was not to face the humdrum of marital conflict but to confront an accurate barrage of criticism, never dreamed of in the Harvard Yard or beneath the elms of college campuses.

A scramble to shallow, exposed fox holes of excuse followed. It is to Mr. Kennedy's credit that he proclaimed his own responsibility. But there is every reason to believe that he will not rely as heavily upon these men as before.

There is sufficient evidence in a number of developments to convince the politician in Mr. Kennedy that his intellectual side and those who flatter it have failed him.

Following his inauguration, numerous men who had sparkled on the banks of the Charles in Cambridge moved to the banks of the Potomac. They had contributed unsparingly during the campaign.

The election won, broad fields of national and world affairs and the administration of the executive branch were ready to be fertilized by their teeming brains.

MR. KENNEDY'S supreme confidence in his personality and political prowess was fed by these men. His administration was to be highly personalized.

The intellectuals who surrounded him deplored the methodical, careful conduct of affairs under President Eisenhower. Informal, hurried conversations took the place of staff work and meetings of the Cabinet and the National Security Council, which were regarded as a "waste of time."

So old heads made way for eggheads. Experience made way for theories. Professionals made way for amateurs.

The new group was to bring something new to government — something worked out in book-lined studies, political science classrooms and in brief vacation trips abroad.

Most unfortunately, a misreading of history by those who were to give the new President's administration a "sense of history" has already led to grievous consequences.

Mr. Khrushchev would cooperate in "easing cold-war tensions," the professors believed. But they had been hoodwinked by the dictator when they visited Russia last year.

Greater shipments of military equipment and technical advisers to Laos and Cuba, pressure in South Viet Nam, outrageous behavior and stronger statements on disarmament have been Mr. Khrushchev's response to Mr. Kennedy's conviction that he could succeed where others have failed.

Another president of massive persuasion at home, Franklin D. Roosevelt, had found that his native talents could not be exported to match the Marxian dialectical approach of Joseph Stalin.

The full facts behind the Cuban debacle are not being released. Military men, unlike the liberal intellectuals who are unaccustomed to taking orders and recoil at having a "lid" closed over them, have not been talking.

REPORTS that the Joint Chiefs of Staff were a party to such an unrealistic "invasion" plan are highly questionable.

Closer to the truth, perhaps, is a report that when a congressman asked Gen. Lemnitzer whether the JCS had approved the venture, the President cut in, saying, "The JCS were neither asked to approve or disapprove; they were simply informed of plans."

Delegation of military matters to a group of rank amateurs in the Cuban affair can be compared with certain political appointments to Army commands during the Civil War.

The Associated Press recently reported signs of "deteriorating relations" between Congress and the White House. This is in part due to resentment which springs from what legislative leaders "regard as meddling by Kennedy administration strategists."

To blend the efforts of practical men who have years of experience and strong opinions of their own with the theoretical new group of advisers is a challenge to the President.

His reliance may well shift to the former, while many of the latter return to their university chairs.

Minority Of One

By Truman Twill

Some of my best friends are sailors. Or perhaps I should say they are water-borne. They have joined the boat-owning throng.

We used to gasp with astonishment when we saw pictures of boats apparently sailing through the air on canals in Holland because the water level was higher than the level of the surrounding countryside. This optical illusion now is commonplace in the United States.

Boats form an endless procession on every highway. They go sailing over bridges and up the sides of hills. There is a question whether some of these boats ever actually get into the water, because they appear to put in all their time skimming through the countryside.

I'll never join the boat-owning throng. There are 11 good reasons. The first nine are not important. No. 10, however, is of considerable importance. I wouldn't consider owning a boat that would make me seasick if the water was rough, and I have no chance of owning one so large this wouldn't happen.

The other reason, never before disclosed, is even more personal.

It happened in the late part of World War II. There was a project afoot to give some ambulant convalescent from a veterans' hospital an outing. It grew into a pretty hairy affair.

A group of armchair generals and shoreside admirals had been formed to give the wounded veterans anything they wanted and what they wanted most was a chance to make uninhibited and unlimited whoopee. The two heroes assigned to my care went into celebrating orbit and stayed that way until the outing ended and they were on their way home to the hospital, the worse for wear.

One of my boys was wearing a full length cast. In the course of events that afternoon, he allowed as to how he was a little old mountain boy and would purely appreciate a boat ride. So saying, he pointed to a boat with an outboard attached and some fool said, "Go ahead, take the boy for a boat ride."

How it happened, I cannot tell. But that boy with the cast on his leg, that little old mountain boy, planted himself in the stern, pulled the starter rope and his buddy and I started the wildest ride of our lives.

The kid knew nothing about steering a boat and still less about caution. He ran that boat hither and yon at full throttle, scaring the life out of every other boater on the lake until the novelty of the thing wore off and he got sleepy.

He let it be known he couldn't swim, which would have been out of the question with that heavy cast anyway. His buddy couldn't swim, either, he declared, and I was too stricken with fear to talk. I can't even float.

It took more than a half hour to use up that little old mountain boy's enthusiasm and twice a minute I promised myself if I survived never to get in a boat again if Providence spared me.

That is Reason No. 11 why I never will join the boat-owning throng.

If I can stick by my resolution, this will make me a minority of one in no time. I will be the only American living who does not own a boat. I may be the only one now.

Center Of It All

The new population center of the United States is near the appropriately named city of Centralia, in southern Illinois.

As determined by the 1960 census, it is 57 miles west of the 1950 point near Olney, Illinois, and 701 miles west of the 1790 site.

Private surveyors using the Census Bureau's latitude and longitude findings unofficially have pinpointed the new center on a farm 6½ miles northwest of Centralia.

Soon the Coast and Geodetic Survey officially will designate the spot and set up a permanent marker. If usual practice is followed, a monument will be erected later on a near-by public highway and the event will be observed at ceremonies attended by state and federal officials.

Locating the shifting center of population is a complex mathematical process. Its object is to establish the geographic point at which perfect balance would result if the country were a plane on which all inhabitants weighed the same and affected the center in proportion to their distance from it.

FALSE TEETH That Loosen Need Not Embarrass

Many wearers of false teeth have suffered real embarrassment because their plate dropped, slipped or wobbled at just the wrong time. Do not live in fear of this happening to you. Just sprinkle a little FASTEETH, the alkaline (non-acid) powder, on your plates. Hold false teeth more firmly, so they feel more comfortable. Does not sour. Checks "plate odor breath". Get FASTEETH at drug counters everywhere.

FALSE TEETH
That Loosen
Need Not Embarrass

Many wearers of false teeth have suffered real embarrassment because their plate dropped, slipped or wobbled at just the wrong time. Do not live in fear of this happening to you. Just sprinkle a little FASTEETH, the alkaline (non-acid) powder, on your plates. Hold false teeth more firmly, so they feel more comfortable. Does not sour. Checks "plate odor breath". Get FASTEETH at drug counters everywhere.

'Stores Of 50 Years Ago' Topic For Travelers Club

"Stores and Food of Fifty Years Ago" was the program theme presented by Mrs. James Fortiner at the closing dinner meeting of the Travelers Club Monday night at Piatt's Tea Room in Wellsville. Miss Helen Capehart and Miss Winifred Calcott were hostesses. Some 27 attended.

Seated at a table covered with an old-fashioned red cloth, Mrs. Fortiner wore a sun bonnet and large apron and read a letter by candlelight to her daughter, Mrs. Richard Unkefer.

The letter related stories of her father's and grandfather's stores some 50 years ago and listed a variety of items and articles sold. She presented each guest with a handmade book containing recipes of her mother and grandmother.

Members participated in roll call by naming a favorite food of childhood. Miss Capehart was program chairman.

Mrs. Arlene Scotton conducted devotions on "Whistler's Mother," telling the story of how the painting came to be used in conjunction with "Mother's Day." She also mentioned events of interest occurring in the early 1890's and into 1910, the year the club was organized.

New officers were installed by Mrs. Scotton, parliamentarian. They are: Miss Alta Flowers, president; Miss Capehart, first vice president; Mrs. Blair Flower, second vice president; Mrs. Thomas Doland, secretary, and Mrs. Nessie Dunlop, treasurer.

Mrs. William E. Kaiser, retiring president, conducted business. Mrs. Unkefer was welcomed as a new member. Mrs. Isabel Hart read the minutes and Mrs. Dunlop the financial report.

A letter was read from the Tri-State Science Fair, thanking the club for the recent contribution. The club was reminded of the Spring Art Show of the City Federation of Women's Clubs, now in progress at Carnegie Public Library. Several members have entered paintings.

The tables were decorated with various color hyacinths, tulips and narcissus, along with lighted tapers. Favors were small china ash trays filled with mints. Mrs. J. O. Heddleston gave the blessing.

This concludes the "Golden Anniversary Year" celebration for the club.

Meetings will resume in the fall. A picnic is scheduled June 5 with Mrs. T. Fred Edwards of Richmond, Ohio. A box social and old-fashioned spelling bee will be featured.

'Stores Of 50 Years Ago' Topic For Travelers Club

"Stores and Food of Fifty Years Ago" was the program theme presented by Mrs. James Fortiner at the closing dinner meeting of the Travelers Club Monday night at Piatt's Tea Room in Wellsville. Miss Helen Capehart and Miss Winifred Calcott were hostesses. Some 27 attended.

Seated at a table covered with an old-fashioned red cloth, Mrs. Fortiner wore a sun bonnet and large apron and read a letter by candlelight to her daughter, Mrs. Richard Unkefer.

The letter related stories of her father's and grandfather's stores some 50 years ago and listed a variety of items and articles sold. She presented each guest with a handmade book containing recipes of her mother and grandmother.

Members participated in roll call by naming a favorite food of childhood. Miss Capehart was program chairman.

Mrs. Arlene Scotton conducted devotions on "Whistler's Mother," telling the story of how the painting came to be used in conjunction with "Mother's Day." She also mentioned events of interest occurring in the early 1890's and into 1910, the year the club was organized.

New officers were installed by Mrs. Scotton, parliamentarian. They are: Miss Alta Flowers, president; Miss Capehart, first vice president; Mrs. Blair Flower, second vice president; Mrs. Thomas Doland, secretary, and Mrs. Nessie Dunlop, treasurer.

Mrs. William E. Kaiser, retiring president, conducted business. Mrs. Unkefer was welcomed as a new member. Mrs. Isabel Hart read the minutes and Mrs. Dunlop the financial report.

A letter was read from the Tri-State Science Fair, thanking the club for the recent contribution. The club was reminded of the Spring Art Show of the City Federation of Women's Clubs, now in progress at Carnegie Public Library. Several members have entered paintings.

The tables were decorated with various color hyacinths, tulips and narcissus, along with lighted tapers. Favors were small china ash trays filled with mints. Mrs. J. O. Heddleston gave the blessing.

This concludes the "Golden Anniversary Year" celebration for the club.

Meetings will resume in the fall. A picnic is scheduled June 5 with Mrs. T. Fred Edwards of Richmond, Ohio. A box social and old-fashioned spelling bee will be featured.

New Waterford Man Freed In Jury Trial

LISBON — A Common Pleas Court jury deliberated less than 30 minutes in returning a verdict of not guilty for Ross E. Cahplow of New Waterford on a charge of non-support of two minor children.

The jury was seated, heard testimony and received the charge by 11:55 a.m. The panel deliberated about five minutes, went to lunch and returned at 1 p. m. and signaled a verdict 1:22 p.m.

The April Grand Jury indicted Chaplow but testimony indicated he had made his payments regularly until he quit his job in the west and had not been able to find work since returning.

Police Call Off Hunt In Kidnap, Wounding Case

CLEVELAND (AP)—Police early today called off a search for a man who kidnaped an Eastlake motorist Tuesday, stole $2,438 in bowling league funds, then shot him.

Almost 35 policemen, many with shotguns, searched the grounds of the Villa Angela Academy and the 65-acre area around Wildwood Park.

The victim, Eugene Madansky, 27, was in Euclid-Glenville Hospital with bullet wounds in the stomach and left leg.

Madansky told police he was driving to his bowling league dinner in Euclid and stopped for a stoplight on Lake Shore Boulevard at East 293rd Street in Willowick. He said a man suddenly jerked open the door and slid in on the front seat.

The man ordered Madansky to drive to the park. After he had obeyed the intruder's order to park, Madansky said, the gunman searched the car and found a shoe box with the money in it. Madansky was holding the cash as secretary of a league of the Eaton Manufacturing Co., where he works as a draftsman. The bowling league was to split up the kitty Tuesday night at a season-end banquet.

When the gunman opened the door to escape, Madansky said he lunged at the man. Madansky said he was shot attempting to stop the man.

Madansky said he drove to a trailer of the park owner, Joseph Lavrich, 46, who called the police.

Federal Jury Indicts State Representative

PITTSBURGH (AP) — A Democratic state representative from suburban Penn Hills has been indicted on a charge of embezzling $1,379 while employed as a teller at the Monroeville branch of the Pittsburgh National Bank.

A federal grand jury Tuesday indicted Arthur O. Guesman, 28, who was elected to the legislature last November. The FBI arrested him on March 24.

Guesman is accused of making false entries in the bank's cash accounts in an attempt to cover up the embezzlement. The FBI said an audit revealed the shortage.

Claims Total 1,046 By Area Unemployed

Claims for unemployment compensation in East Liverpool last week totaled 1,046, Harry L. Dinsmore, manager of the Ohio State Employment Service, said today.

The total includes 893 regular claims and 140 filed under the federal extended program, Dinsmore said.

Of the regular claims, 127 were new and 766 continued while the extended claims included 13 new and 127 continued.

Chair Hoist Stolen

LISBON — John Marshalek of R. D. 4, a welder, reported to the sheriff's department Tuesday that a chair hoist worth $125 was stolen from his truck, between Saturday and Monday evening.

Roads To Get $123 Million

A 5-year, $2 billion highway construction program announced today by the Ohio Department of Highways includes $123,753,000 for Division 11.

A total of $68,173,000 of the Division 11 figure is for projects scheduled on fairly firm priorities through June 1963. It includes $30,418,000 for interstate and $37,755,000 for other work in the seven-county area, according to William McKenna, division director.

Division 11 encompasses Columbiana, Jefferson, Belmont, Carroll, Harrison, Tuscarawas, and Holmes Counties.

Some projects have already been contracted at the six bid-lettings held by the Department so far this year. Key jobs remaining for the Division include portions of IR 70 in Belmont County and IR 77 near Dover in Tuscarawas County; continued improvement of SR 7 along the Ohio River, and the Uhrichsville bypass on USR 36.

These are slated for contracting either before June 30, 1962, or in the following fiscal year, which ends June 30, 1963. To allow for inevitable cancelations, the listing exceeds anticipated funds by about 25 per cent.

Of the $30,418,000 in Division 11 interstate, a total of $11,118,000 is slated for contracting before June 30, 1962. The remainder will be spread over the following 12 months.

Non-interstate jobs amounting to $19,665,000 will go up for bids through June of 1962, with $18,090,000 to follow during the next fiscal year.

Beyond June, 1963, the projects listed in the five-year program are only tentatively scheduled with tentative priorities.

WARREN, Ohio (AP)—John P. Cook, who lost the Democratic nomination for mayor of Hubbard to Albert Sauline by two votes, says he will ask a recount.

Lawrence And Black Resign Posts As Chamber Trustees

The resignations of William A. Black and Fred P. Lawrence as members of the Board of Trustees of the Chamber of Commerce were accepted by the board at its May meeting Tuesday afternoon.

Both resigned because of plans to move from East Liverpool shortly. Black, area manager of the Ohio Power Co., is scheduled for a year's advanced study at the Massachusetts Institute of Technology. Lawrence, owner of the Sayre Electric Co., expects to leave sometime this summer to make his home in Princeton, N. J.

The board elected to the vacancies Dr. Arthur A. Turner, dentist, and Maurice Rapport, retail merchant.

The Chamber by-laws provide that the vacancies will be filled by the board.

Alvin T. Babb, president, reported on the annual meeting of the U. S. Chamber April 30-May 3 in Washington. The local delegation also included Charles Taylor, Paul Bloor and E. R. Chandelr, secretary-manager.

Babb also reported on plans for a Local Chamber Leaders Workshop scheduled Monday in Bellaire. It will be conducted by U. S. Chamber representatives for officers, board members and committee chairman of Chambers in nearby sections of Ohio, West Virginia and Pennsylvania.

The local Chamber may send a delegation, although the workshop date conflicts with its annual spring membership meeting at the Country Club.

Chandler reported on recent meetings he has attended, including a session at Lisbon on proposed relocation of State Route 62 through northern Columbiana County and a discussion at Youngstown on plans for a Lake Erie - Ohio River Waterway.

School Supt. Ralph W. Betts, a member of the public education committee, said it is continuing plans to honor outstanding students in the graduating classes of area high schools.

Taylor, second vice president, reported on plans to organize an economic discussion group in the fall.

The board approved the proposal and authorized the business relations committee to organize the classes.

Don Eckert reported on the Steelmark Days program held last week, part of an Ohio Valley observance to emphasize the role of steel in the regional economy.

The board approved a membership application from the Midland Works of the Crucible Steel Co.

The next meeting will be June 13.

Body Identified

CINCINNATI (AP) — Relatives have identified the body of a woman found in the Ohio River Tuesday as that of Miss Pearl Hahn, 74, of Cincinnati. Miss Hahn was last seen April 17. She had been in ill health.

As Result Of 1960 Census

3 Proposals Considered For Ohio's New District

COLUMBUS, Ohio (AP) — An Ohio House committee, given the job of coming up with a district for the state's new 24th congressman to represent, had three proposals to consider today.

The situation results from the 1960 census. It showed Ohio has gained enough people to have another member in the U.S. House of Representatives. The same thing hapuened after the 1950 census.

But the state presently is carved up into 23 congressional districts as the result of a decision by the 1951 legislature. Unless the new representative is to be elected from the state at large, which has happened in the past, lines must be redrawn to provide a 24th district.

The problem has been hanging over the legislature since this session began in January. Tuesday night, a subcommittee offered these proposals to the House Elections and Federal Relations Committee:

1. Take Butler County from the heavily populated 3rd District (presently Butler and Montgomery counties), Preble from the 4th (Preble, Darke, Mercer, Allen, Auglaize, Shelby and Miami) and Warren from the 7th (Warren, Clinton, Greene, Clark, Madison, Champaign, Logan and Union). The population in this 24th district would be 297,286.

2. Take Butler and Warren counties from their respective districts and add Clermont County from the 6th District (Clermont, Brown, Adams, Scioto, Pike, Highland, Ross, Fayette and Pickaway). This district arrangement would have a population of 345,317.

3. Take Butler, Preble and Warren—as in proposal No. 1 — plus Clermont. The population in this arrangement would be 377,815.

Several bills have been introduced on the subject. Because Democratic Gov. Michael V. DiSalle doubtless would veto any arrangement heavily favoring the GOP—and Republicans probably couldn't override—Democratic support of any proposal is considered essential.

House Speaker Roger Cloud, (R-Logan) has expressed confidence that an arrangement can be reached which will be acceptable to DiSalle. If not, and if DiSalle's veto could not be overridden, the state would elect a congressman-at-large next year.

The present split in the state's delegation to the U.S. House of Representatives is 16 Republicans and 7 Democrats.

DIANE MCGARRY, a freshman at Pine Manor, Mass., Junior College, went on vacation and became royalty. The "Bermuda College Week" queen was most fetching in her crown and shorts.

The continent of Africa—home to a growing family of nations—is three times the size of the United States.

Held In Slaying

CHILLICOTHE, Ohio (AP)—Robert H. Tweed, 16, of Chillicothe is being held by juvenile authorities pending investigation of the shotgun slaying of his father, Robert V. Tweed, 40. Officials said Tweed and his wife apparently were engaged in a family quarrel Monday night when Robert fired the shotgun at his father. No charges have been filed.

As Result Of 1960 Census

3 Proposals Considered For Ohio's New District

COLUMBUS, Ohio (AP) — An Ohio House committee, given the job of coming up with a district for the state's new 24th congressman to represent, had three proposals to consider today.

The situation results from the 1960 census. It showed Ohio has gained enough people to have another member in the U.S. House of Representatives. The same thing hapuened after the 1950 census.

But the state presently is carved up into 23 congressional districts as the result of a decision by the 1951 legislature. Unless the new representative is to be elected from the state at large, which has happened in the past, lines must be redrawn to provide a 24th district.

The problem has been hanging over the legislature since this session began in January. Tuesday night, a subcommittee offered these proposals to the House Elections and Federal Relations Committee:

1. Take Butler County from the heavily populated 3rd District (presently Butler and Montgomery counties), Preble from the 4th (Preble, Darke, Mercer, Allen, Auglaize, Shelby and Miami) and Warren from the 7th (Warren, Clinton, Greene, Clark, Madison, Champaign, Logan and Union). The population in this 24th district would be 297,286.

2. Take Butler and Warren counties from their respective districts and add Clermont County from the 6th District (Clermont, Brown, Adams, Scioto, Pike, Highland, Ross, Fayette and Pickaway). This district arrangement would have a population of 345,317.

3. Take Butler, Preble and Warren—as in proposal No. 1 — plus Clermont. The population in this arrangement would be 377,815.

Several bills have been introduced on the subject. Because Democratic Gov. Michael V. DiSalle doubtless would veto any arrangement heavily favoring the GOP—and Republicans probably couldn't override—Democratic support of any proposal is considered essential.

House Speaker Roger Cloud, (R-Logan) has expressed confidence that an arrangement can be reached which will be acceptable to DiSalle. If not, and if DiSalle's veto could not be overridden, the state would elect a congressman-at-large next year.

The present split in the state's delegation to the U.S. House of Representatives is 16 Republicans and 7 Democrats.

DIANE MCGARRY, a freshman at Pine Manor, Mass., Junior College, went on vacation and became royalty. The "Bermuda College Week" queen was most fetching in her crown and shorts.

The continent of Africa—home to a growing family of nations—is three times the size of the United States.

Held In Slaying

CHILLICOTHE, Ohio (AP)—Robert H. Tweed, 16, of Chillicothe is being held by juvenile authorities pending investigation of the shotgun slaying of his father, Robert V. Tweed, 40. Officials said Tweed and his wife apparently were engaged in a family quarrel Monday night when Robert fired the shotgun at his father. No charges have been filed.

About 40 absentee ballots have been issued for the Beaver County primary next Tuesday, William B. Smith, director of the Bureau of Elections at Beaver, said.

They include about 35 civilian and 10 to 15 military and veterans' ballots, he said. Sample ballots will be available Friday.

The primary this year is mostly on the local levels. There will also be five county jury commissioners nominated.

Registration in the county includes 51,718 Democrats and 41,164 Republicans and 780 non-partisan, independent or minor party members, according to James Keifer, director of the Registration Office.

The 93,662 eligible to vote is 1,963 less than those registered for the November general election.

Registration closed March 27 and opens soon after the primary.

The post auxiliary will meet Thursday night at 7:30. Dorman Rosenlieb, senior vice commander, presided in the absence of James Daniels, commander.

Next meeting is May 23.

40 Absentees Given Ballots

About 40 absentee ballots have been issued for the Beaver County primary next Tuesday, William B. Smith, director of the Bureau of Elections at Beaver, said.

They include about 35 civilian and 10 to 15 military and veterans' ballots, he said. Sample ballots will be available Friday.

The primary this year is mostly on the local levels. There will also be five county jury commissioners nominated.

Registration in the county includes 51,718 Democrats and 41,164 Republicans and 780 non-partisan, independent or minor party members, according to James Keifer, director of the Registration Office.

The 93,662 eligible to vote is 1,963 less than those registered for the November general election.

Registration closed March 27 and opens soon after the primary.

Rotarians Shown Film On Crucible

"Specialty Steels," a color film of the manufacture of special grades of steel in the Crucible Steel Co. plants, was screened at the Rotary Club's meeting Tuesday afternoon in the Travelers Hotel.

E. R. Chandler was program chairman and the film was presented as part of the observance of Steelmark Month in the Upper Ohio Valley.

Glenn B. Roberts of Wellsville R. D. 1, superintendent of community relations at Crucible in Midland, expressed the company's thanks for East Liverpool's participation in emphasizing the importance of steel during brief remarks.

"Steel manufacturing was the beginning of our modern civilization, without steel we would live like our ancestors of 150 years ago," he said. Robert McVay, an associate, was a guest. George Hargraves, president, presided.

Ohioville GOP Club Will Discuss Merger

A proposed merger of all Beaver County GOP organizations will be discussed when the Ohioville Republican Club meets Wednesday, May 24 at 8 p. m. in the Ohio Township building.

Scheel said that in the past, free movement between voting areas had taken place, but according to state election laws a resident of one district cannot electioneer in another precinct on election day.

Mrs. Sam McKinney, Mrs. Wesley Saucer, Mrs. F. Paul Dawson, Mrs. Bernard Ratkovich and Mrs. William Griffin have been named poll workers for the primary Tuesday.

Bucs Get To Giants Early In 9-6 Win

By ED WILKS
Associated Press Sports Writer

The Pittsburgh Pirates chased Jack Sanford in a three-run first inning and beat San Francisco 9-6 Tuesday night, ending the Giants' winning streak at four and slicing their National League lead to one game. The Los Angeles Dodgers took over second place with a 5-2 victory at Philadelphia in a game called after 5½ innings by rain, and Milwaukee belted the Chicago Cubs 8-5.

The other NL game, St. Louis at Cincinnati, was rained out.

Sanford was tagged for five hits and gave up two walks in the Bucs' big first inning. Roberto Clemente drove in the Pirates' last four runs, hitting a two-run single off reliever Jim Duffalo for a clinching 7-0 bulge in the second inning and then banging a two-run homer off Ed Fisher in the seventh.

Southpaw Harvey Haddix won his second without defeat, but gave up a solo homer by Ed Bailey and needed Clem Labine's relief help in the seventh.

The Dodgers sent the Phillies to their eighth straight defeat behind the four-hit pitching of Don Drysdale (3-2). Art Mahaffey (2-3) was the loser, giving up home runs by Ron Fairly and Norm Larker as the Dodgers scored in each of the first five innings.

Joe Adcock, who hit two homers, and Frank Bolling each drove in three runs as the Braves ended their losing slump at three. Bob Buhl, making his fifth start, won his first against two defeats with a four-hitter, two of them homers by Ernie Banks that drove in four runs. Glen Hobbie (1-4) lost his third in a row when the Braves broke a 3-3 tie in the seventh.

Outfielder Frank Thomas, traded to the Braves by the Cubs for Mel Roach earlier in the day, helped send Chicago to a fifth straight loss with a run scoring double.

Gentile Sets New HR Mark

Oriole Clubs Back-To-Back Grand Slams

By ED WILKS
Associated Press Sports Writer

Jim Gentile set a major league record by hitting consecutive grand slam home runs as Baltimore whipped Minnesota 13-5 Tuesday, and left-hander Herb Score pitched a two-hitter as the Chicago White Sox beat Cleveland 4-2 and escaped the American League cellar after losing seven in a row.

Detroit gained a three-game lead although splitting a twi-night doubleheader with Washington, winning 7-2, then losing 5-4. Kansas City beat second place New York 5-4, and Los Angeles defeated Boston 8-7.

Gentile, 26, a lefty hitter who walloped 21 home runs last season after his conditional purchase from the Dodgers' farm at St. Paul, returned to Metropolitan Stadium at St. Paul-Minneapolis and hit his slams in the first and second innings. They came off loser Pete Ramos (2-2) and reliever Paul Giel.

The two shots, both 410-foot blasts, gave Gentile a major league record with eight RBI in two innings. He finished with nine runs batted in, taking the AL lead with 30, and tied Mickey Mantle of the Yankees for the home run lead with nine.

Ron Hansen also homered for the Birds, who had 11 hits, eight for extra bases. Bob Allison, belting two, Hal Naragon and Harmon Killebrew homered for the Twins off winner Chuck Estrada (2-1) and Gordon Jones.

Belts A Couple Of Slams.

Score, 27, making his first start of the season, had control trouble but pitched the sixth two-hitter of his career. It was four years ago—almost to the day—that he was struck in the eye by a line drive.

The White Sox had only four hits off Jim Perry (2-2), but got the job done on the hitting of Jim Landis. He had two hits, one a tie-breaking, two-run homer in the seventh, drove in three runs and scored two.

Southpaw Don Mossi won his fourth without defeat for the Tigers with a four-hitter. He gave up the runs on consecutive homers by Willie Tasby and Gene Green in the fourth inning. Joe McClain was the loser for a 3-2 record.

Tasby also homered in the second game for the Senators along with Gene Woodling, whose seventh-inning shot wrapped it up. Bennie Daniels (1-3) won his first in the AL with Dave Sisler's relief help. Paul Foytack (1-2) was the loser.

The A's, held to one run and four hits for seven innings, chased Whitey Ford and beat reliever Luis Arroyo (1-1) with four runs in the eighth. Singles by pinch-hitter Don Larsen and Hank Bauer, both ex-Yanks, and an infield out brought them home. Ray Herbert (2-1) won it with a no-hit mopup by Jim Archer in the ninth. Tony Kubek and Bill Skowron homered for the Yankees.

The Angels won four in a row for the first time with an unearned run in the ninth on an error by rookie Carl Yastrzemski of the Red Sox. Boston, twice coming from behind and blowing a 4-3 lead in between, had tied it 7-all in the ninth on a two-run double by Jim Pagliaroni. Eli Grba (3-2) won it and Ted Wills (1-1) lost it, both in relief.

Starting pitcher Jerry Casale, Leon Wagner, Earl Averill and Gene Leek homered for the first seven runs by the Angels, who have belted 26 in 13 games at Wrigley Field. Yastrzemski's first major league home run made it a total of 42—an average of four a game—for the cozy home of the Angels.

What! Gentile Rides Bench

ST. PAUL-MINNEAPOLIS (AP)—Baltimore's Jim Gentile made baseball history by hitting grand slam home runs in two consecutive innings Tuesday, so today he gets his reward. He will ride the bench.

"It's been our policy to take him out when the other team pitches a left-hander," Oriole Manager Paul Richards said after the 13-5 victory over the Minnesota Twins in the series opener. "I see no reason to change." The Twins will use southpaw Jack Kralick today.

It was Gentile's day as the rival clubs entertained a chilled gallery of 4,514 by looping seven balls out of the bastile on the plains. The tall, nonchalant first baseman set still another American League record with his two rousing blows.

In addition to being the first grand slammers in consecutive innings he bettered the mark of seven RBI in consecutive innings held jointly by himself, George Sisler and Vic Wertz. Gentile batted in seven in the sixth and seventh innings of a game last June 26.

Three other players — Tony Lazzeri (1936), Jim Tabor (1939) and Rudy York (1946) had hit two grand slammers in a game, but not back to back.

Gentile, always a long-ball hitter, has had his ups and downs. The Brooklyn, later Los Angeles, Dodgers had him up from St. Paul a couple of times, but apparently gave up on him. They also had Gil Hodges.

The Dodgers used up their options on him, so he was available to any club for a price. The Orioles grabbed him at the end of his 1959 season with the Saints, paying "a little higher than the minimum," as Oriole President Lee MacPhail explained it.

He settled down to play major league baseball last year, hitting .292 in 138 games, blasting 21 home runs and rapping home 98.

Landis Helps Herb Score To 4-2 Decision Over Indians

Southpaw Allows 2 Hits; Perry Fails On 4-Hitter

CHICAGO (AP) — Cleveland's Jim Perry pitched a four-hitter against Chicago Tuesday night and was great against everybody except Jim Landis—so he lost the game. A two-hitter by Herb Score bested Perry, 4-2.

From the fourth inning to the eighth, Perry was touched for only one hit, a single by Roy Sievers. But Landis won it for the White Sox with a two-run homer in the eighth that broke a 2-2 tie. Landis also drove in a run with a fly ball and hit a double which eventually turned into a run, thus figuring in all the Chicago scoring.

Score held Cleveland hitless until the sixth inning, when Jim Piersall drove a fly to deep center that Landis dove for and barely missed. It went for a triple.

Except for a little wildness — he walked six—Score used his popping fast ball and sharp-breaking curve with aplomb in his initial 1961 start. The former Indian ace is still trying to recover his old form after his famed near-tragic injury.

Johnny Temple got the other Cleveland hit, a single to left in the eighth. Neither of Cleveland's hits figured in the scoring.

Both Cleveland runs were driven across on sacrifice flies by Vic Power.

Manager Jimmie Dykes was unhappy with his team's continued lack of runs. "The two we got were cheap," he said.

Cleveland scored once in the second. Woodie Held walked, went to second on a balk, advanced to third on Willie Kirkland's fly ball and scored on Power's fly to right.

The other run came in the fourth. Piersall and Held walked and Piersall moved up to third on a fly ball by Kirkland and scored on a sacrifice fly by Power.

The victory ended a seven-game losing streak for Chicago.

Today was cutdown day for the Tribe, who must get rid of a player to get down to the legal limit.

Cleveland plans to start Gary Bell (0-4) against Bob Shaw (2-1) here tonight to wind up the two-game series.

NEW YORK (AP) — Major league baseball box scores, filled with the same and similar names, can be mighty confusing.

There's Frank Thomas of the Braves, Leroy Thomas of the Angels, Valmy Thomas of the Indians and George Thomas of the Tigers.

Then there's the colorful group of Fred Green of the Pirates, Dallas Green of the Phillies, Pumpsie Green of the Red Sox, Gene Green of the Senators and Lennie Green of the Twins. More color is provided by Dick Brown of the Tigers and Skinny Brown of the Orioles.

Another confusing quintet includes Hal Smith of the Pirates, Hal Smith of the Cards, Bobby Gene Smith and Charlie Smith of the Phils and Al Smith of the White Sox. The Jones boys are well represented with Sam Jones of the Giants, Gordon Jones of the Orioles and Willie Jones of the Reds.

Jackie Robinson and Ted Williams have retired, but there are Frank Robinson of the Reds, Floyd Robinson of the White Sox, Brooks Robinson and Earl Robinson of the Orioles, and Billy Williams of the Cubs, Stan Williams of the Dodgers and Dick Williams of the Orioles.

For some confusin' twosomes look at these: Harry Anderson of the Reds and Bob Anderson of the Cubs; Marshall Bridges of the Reds and Rocky Bridges of the Angels; Elston Howard of the Yanks and Frank Howard of the Dodgers; Jim Brewer of the Cubs and Tom Brewer of the Red Sox; Tommy Davis and Willie Davis of the Dodgers; J. C. Martin of the White Sox and Billy Martin of the Braves; Tony Taylor of the Phils and Sammy Taylor of the Cubs; Tom Morgan of the Angels and Joe Morgan of the Indians.

The brother combinations don't make things easy, either: Ken Aspromonte of the Angels and Bob Aspromonte of the Dodgers; Cletis Boyer of the Yanks and Ken Boyer of the Cards; Larry Sherry and Norm Sherry of the Dodgers; Filipe Alou and Matty Alou of the Giants; Marv Throneberry of the A's and Faye Throneberry of the Angels; Gene Freese of the Reds and George Freese of the Cubs.

Doe Shot After Being Struck By Auto On Rt. 68

A pregnant doe was shot by Ohio Township Constable Bernard Zlatovich after it was hit by an unidentified motorist Monday about 3 p. m. near the Beaver Creek Bridge, Route 68, at Smiths Ferry.

Zlatovich said the doe was cleaned and two stillborn bucks were found. The doe was turned over to Harry Mertz of Beaver, game warden. The constable said that dogs apparently frightened the deer, causing it to run onto the road.

Midland Heights Constable Bernard Gallagher was also at the scene.

Cubs Trade Thomas For Braves' Mel Roach

MILWAUKEE (AP) — The Milwaukee Braves hoped their two-year search for a top-flight left-fielder was ended today with the acquisition of hard-hitting veteran Frank Thomas.

The Braves turned to the Chicago Cubs to fill one of their big holes and obtained Thomas Tuesday in a straight player deal for Mel Roach, an infielder converted to a fly-chaser in left by Milwaukee.

A couple of hours later, the two players exchanged uniforms, Thomas donning Roach's No. 12 for the Braves and Mel suiting up in Frank's No. 25 for the Cubs.

Milwaukee came out on top in the initial test of the deal. Thomas drove in an insurance run with a long double after walking and striking out twice in the Braves' 8-5 victory. Roach, shifted to first base by the Cubs, had a walk in four times at bat.

The Braves employed no less than eight left fielders during the course of the 1960 season. This year six had been tried in the troublesome spot before Thomas' arrival.

Thomas promptly equalled Roach's RBI total in the last nine games with his run-producing hit. Roach had been hitting .406 until given the regular job. Then he slumped to .167—and his fielding fell off, too.

Thomas hit only .238 for the Cubs last season, but belted 21 homers and drove in 64 runs. He has 198 lifetime homers.

Roach, in 48 games last season, batted .300 and had a fielding average of .961. He was with Atlanta and Jacksonville, Fla., part of the 1957 season and with Wichita for 20 games in 1958. He was in military service in 1955 and 1956.

Machen's Manager Hurls Challenge At Patterson

SAN JOSE, Calif. (AP) — Sid Flaherty, manager of second-ranked heavyweight contender Eddie Machen, Tuesday challenged world champion Floyd Patterson for a winner-take-all fight.

Patterson in a news conference last Friday said that Machen and England's Henry Cooper did not figure in his 1961 title defense plans.

Patterson repeatedly has said he will not fight Sonny Liston, the No. 1 ranked challenger, until Liston "is clean" of alleged underworld connections.

Flaherty was in New York last week, attempting, he said, to get his boy into the picture.

"We will fight Floyd in any state where a winner-take-all arrangement is possible. We are willing to let D'Amato select an associate manager to work with me . . . also he can pick a man to work in Machen's corner the night of the fight.

"And in the meantime should my presence as Machen's manager prevent Eddie from getting a shot, I will gladly follow the same procedure as Liston's manager, withdraw if necessary," Sid added.

Machen outpointed Mike Dejohn in nearby San Francisco in his last start, a 10-rounder, and lost to Liston in 12 rounds by decision last September.

Major League Clubs Must Trim Rosters By Midnight

By MIKE RATHET
Associated Press Sports Writer

Cutdown time tolls at midnight for the major league rookie with too little talent and the veteran with too much age.

For those players, and others facing a trip to the minors or their outright release, the remaining hours before tonight's deadline will be filled with anxiety as club officials huddle over scouting reports before making final decisions.

Before midnight all 18 major league clubs—with the exception of the Washington Senators and Chicago White Sox — must be down to the regular-season player limit of 25 players. They have been carrying 28 since opening day.

The new Senators and White Sox, who began the season a day earlier thant he other clubs in a special presidential opener, had to reach the player limit by Tuesday midnight.

The White Sox got down to legal size by giving catcher Joe Ginsberg his unconditional release. The Senators cut outfielder Joe Hicks, second baseman Chester Boak, and pitcher Rudy Hernandez.

Hicks and Hernandez were optioned to Indianapolis of the American Association and Boak was sent to Syracuse of the International League. All are on 24-hour recall.

The Boston Red Sox also got down to the limit 24 hours early when they optioned outfielder Lou Clinton to Seattle of the Pacific Coast League.

In other significant moves Tuesday, Philadelphia shipped outfielder Tony Curry to Buffalo of the International League and Cleveland farmed out strapping Walt Bond, a promising power hitter.

The Phils also announced that relief pitcher Jack Meyer had retired because of a shoulder ailment.

The Pittsburgh Pirates pared their roster by sending pitcher Jim Umbricht and outfielder Roman Mejias to Columbus of the International League and Kansas City chopped off pitcher Ken Johnson by selling him to Toronto of the International for $20,000.

The Milwaukee Braves put left-handed pitcher George Brunet on the disabled list.

Nowadays recipes for fudge usually call for a tablespoon or two of corn syrup because the syrup helps make a creamy candy.

By R. L. LIDE

Fishing has not been good as of present writing. However, there's nothing wrong that a few days of warm sunshine can't cure.

The best fishing of which I have heard occurred at Westville Lake over the weekend. Two Canton fishermen, Don Wilson and Sloan Renner, landed eight largemouth bass from 2 to 6 pounds. That means about 25 pounds in weight altogether. Bob Kotzbauer, 12, joined the "big boys" when he hooked on to a bass 4 pounds, 9 ounces. Jim King of Alliance took home a 5-pound-9-ounce bass. Many other fishermen took home keepers that cannot make the headlines.

A few bluegills, bullheads, perch and crappies are being taken at Lake Guilford. At Zepernick Lake, the bluegills are not active to any degree, although a few are being caught.

Some large stringers of bullheads are being taken by anglers lucky enough to drop their worms in the right spot while the fisherman next to them don't get; a nibble. Hard to explain. A few of the chain pickerel stocked at Zepernick's last year are now about 7 inches long, but too little to provide any real excitement.

The chain pickerel stocked two years ago are now about 15 inches in length. Recently, 3,000 chain pickerel fry were stocked in Ruff Pond on the Zepernick area. Pickerel do very well in a small body of water, so we should know more about them a few years hence.

MUSHROOM hunters, after the spring morsels, have been finding them more abundant this year than in the past several years.

The wet weather, along with the few warm days, has made conditions ideal. The peak season for gathering mushrooms is now on and should last until June.

Three fellows, friends of mine, gathered about a gallon of them and proceeded to have a steak fry with mushrooms.

They did not cut each one open and look for bugs or worms, merely washed them off and placed them in a skillet of butter. They're doing all right, but without a doubt they ate bugs, worms and all.

Fishermen at Berlin Lake are taking home stringers of those 10- and 11-inch chubby bass, using night crawlers. Walleyes and crappies are biting at Lake Milton. If you intend to fish these areas, you had better get there soon before the speedboats take over.

—:—

I AM INFORMED that since 3½-horsepower motors are going to be allowed on Lake Guilford, these small motors can be "souped-up" to where they can do 25 miles an hour with a light boat built for least resistance.

In that case, it is my opinion that motorboating could be stopped about as soon as it begins. One thing, there will be no water-skiing permitted. I hope the motors will be used intelligently, for fishing purposes or simply a little ride on the lake.

Minerva Tops Beaver Local Track Squad

Mike Durbin flashed his speed once again Tuesday afternoon and almost led Beaver Local to an upset victory at Minerva, but the Beavers finished on the short end of a 56-53 decision.

Durbin won the 100-yard dash in 10.6, came back to capture the 220 in 24.3 and then broad jumped 18-feet-10½ for another first place.

The 880-yard relay team anchored by Durbin won. The other members were John Detchon, Jon Steele and Ron McLaughlin.

Ed Shingleton won the high hurdle event in 19 flat while Jim Hall took first in the shot put, throwing the ball 38-feet-5.

Pete Wilkinson was second in the lows and third in the discus while Shingleton took third in the lows and second in the discus.

Beaver Local is slated to meet Fairfield-Waterford tonight at Columbiana.

Potter Golf Team On Top

The East Liverpool Golf team swept to its seventh win in nine matches Tuesday by defeating Beaver Local 11½-½ over the Country Club course.

Little Bob Putt fired a three-over-par 39 to pace the Potters again, but Rick Crable was only one stroke behind with a 40. Bob Gilmore fashioned a neat 42 while Steve Cooper turned in a 46.

Jim Pike was low for the Beavers with a 53.

Jr. Welterweight Crown At Stake

MILAN, Itlay (AP)—Duilio Loi of Italy and Carlos Ortiz of Puerto Rico stop their war of words and go after each other with boxing gloves tonight in a 15-round bout for the world junior welterweight title, now held by Loi.

The bout, attracting thousands of late ticket buyers, will be held in outdoor San Siro Soccer Stadium.

California Bars PGA Open On Racial Issue

LOS ANGELES (AP) — State Atty. Gen. Stanley Mosk says the Professional Golfers Association Open can't be held in California so long as non-whites are barred.

The title event is scheduled for July at the Brentwood Country Club.

The Los Angeles Junior Chamber of Commerce asked the PGA last week to cancel its contract as sponsor of the event if Negroes were excluded from the contest.

Mosk said his office would act to force the PGA to eliminate the restrictive clause or "cease its activities within this state."

Hospital Gets Grant

CLEVELAND (AP)—St. Vincent Charity Hospital has received a $106,646 grant from the U. S. Public Health Service which it plans to use for construction and equipping of a research building. Plans call for a two-story structure at Charity Avenue SE and East 24th Street, with construction starting in late summer.

Hoover Eyes 3rd Success In Masters

DETROIT (AP)—Dick Hoover's campaign to win his third American Bowling Congress masters championship is rolling onward.

The tubby St. Louis bowler survived two close calls Tuesday to keep his record for three days of finals action clean of defeat.

Hoover's only companion in the unbeaten ranks going into today's last day of the masters was Don Carter, from St. Louis.

Hoover's closest call Tuesday came in the fourth round winners bracket when he squeaked past Stan Gifford of Abilene, Tex., by one pin, 765 to 764 in four games. Hoover strayed in the last frame of the fourth game and struck on the last ball to win. Gifford, unbeaten until the match, was dumped into the losers bracket.

Hoover had another hair-raiser in the fifth round when he whipped Joe Joseph of Detroit by eight pins.

Hoover and Carter tangle today to decide the winner of the winners bracket.

U.S. Cagers Head Home

STOCKHOLM (AP)—The United States' men's and women's basketball teams head for home today via Copenhagen, after winding up a triumphant tour with two romping exhibition victories over Swedish clubs.

Although All-America Jerry Lucas of Ohio State and former Iowa State ace Gary Thompson were out with minor ailments, the men's team romped to a 107-75 victory over the Stockholm All-Stars Tuesday night after the American girls had routed the Swedish national team, 80-30.

It was the ninth victory without a loss for the U.S. men, made up primarily of the National AAU champion Cleveland Pipers. They won eight straight games from Russian teams during their tour of the Soviet Union, including two from the Soviet team, that went on to Belgrade last weekend and captured its third straight European championship.

Lucas, the top U.S. collegiate player who dropped out of school this semester to make the tour, reinjured a leg in the last game in Russia at Leningrad and was held out of the Stockholm exhibition as a precautionary measure. Thompson has a heavy cold.

Marlins Hottest In IL At Moment

San Juan's Marlins are the hottest club in the International Baseball League at the moment.

The May surge of the Marlins, victors in six of their last eight games, has elevated them to within percentage points of the front-running Columbus Jets.

San Juan sidetracked Richmond's drive for the No. 1 spot Tuesday night, thrashing the Virginians 13-6. That shoved Richmond into third place and one game off the pace set by the Jets, who whipped Jersey City 5-1 in a second half of a twin bill after losing 6-3. Buffalo at Toronto and Rochester at Syracuse were rained out.

Lefty Alvin Jackson of Columbus tossed a six-hitter in the nightcap. Larry Elliot's homer produced three first inning runs for him. In the opener, Jersey's Danny Kravitz contributed two home runs good for three runs.

Crucible To Hold Technical Forum On New Equipment

The Crucible Steel Co. will hold a technical forum and plant visit at its Midland Works Thursday morning to view operation and discuss the technical significance of the Crucible D-H Unit.

Guests from Pittsburgh will leave the Hilton Hotel at 8:30 a. m. by chartered buses and arrive at the Midland Works at 10.

The morning program includes welcome by W. E. Gregg, vice president of operations, introduction to the Midland Works by G. M. Burrier, works manager, a brief description of the D-H Unit by W. C. Kollmann, superintendent of the melt shop, inspection of vacuum arc melting facilities for titanium and steels and viewing the D-H unit in operation handling a full heat of steel.

There will be a luncheon and buffet dinner at the Beaver Valley Country Club at Beaver Falls.

During the afternoon technical program, Joel Hunter, president, or L. L. Ferrall, executive vice president, will give the introduction. E. A. March, director of technology, will tell of the importance of vacuum technology in the future of steel and later the commercial importance of the Crucible D-H unit.

C. D. Preusch, development engineer, will speak on the evaluation of Crucible D-H steels. Other vaccum processes will be explained by M. L. Aksoy, chief metallurgist of the Sanderson-Halcomb Works of Syracuse, N. Y. An informal question-and-answer period will follow.

The D-H unit, also referred to as a degassing unit, was designed in Germany and built here by Electromelt Division of McGraw Edison. It is the first of its type used in this country.

Job Picture Brightens In Three Areas

CHARLESTON (AP) — Job prospects are a bit brighter in three major West Virginia market areas.

But the summer school recess could put a damper on things.

The State Employment Service said a survey showed there should be a slight employment expansion within the next few months in the Charleston, Huntington-Ashland-Ironton and Wheeling-Bridgeport, Ohio, areas.

Recall of furloughed factory workers, with scattered seasonal employment gains in other businesses should help.

But the release of teachers and students from school will add to the surplus labor market and make job competition tougher, the survey showed.

Unemployment showed slight gains in the Charleston area during a two-month period ended last mid-March and the total of jobless exceeded a year ago by 1,350, the service said.

The jobless rolls were cut by 1,,500 during the same period in the Wheeling-Bridgeport area due to area residents leaving for jobs in other sections and the recall of furloughed workers.

116 At Church Loyalty Fete In Fund Drive

Some 116 attended the loyalty dinner held by the congregation of the Second Church of Christ Tuesday night in the diningroom of the Chester First Christian Church.

The dinner marked the "kick-off" for a stewardship fund raising campaign for a new church building.

Plans and drawings of the proposed building were officially presented. The new church will be a prefabricated unit with 12 classroom units, a sanctuary to seat 300, plus a kitchen, baptistry and office space.

George Wilkinson, an elder, was master of ceremonies. John Mostoller, minister of the East Liverpool First Church, gave the invocation and congratulated the congregation on its undertaking.

Harry Stewart briefly outlined the plans and physical description of the church. No building site has been selected.

Lester E. Pifer, minister of the First Church at Martins Ferry and campaign counselor, outlined the progress of the campaign.

John Fox, an elder; Robert Estell, deacon and trustee; Wayne Berresford, organization chairman, and James Smith, promotion chairman, also spoke. Special music was presented by a quartet from the First Church of the Nazarene.

Arthur Poll, minister of the Minerva Christian Church, was guest speaker.

The names of those heading the drive were announced. Colin Davis and Kenneth Spore are the division leaders. Team captains are Robert Talbott, George Williams, Donald Pelley and Everett Horner Jr.

Members of the teams are Earl Fullerton, John Higgins, Larry Talbott, William Goddard, Larry Taylor, Carl Staggers, Russell Pugh, Carl McDevitt, Richard Davis, George Wilkinson, Larry Morris, Dan Goddard and Harry Talbott.

Mrs. Kenneth Spore and Mrs. Robert Estell were in charge of table deocrations. The dinner was prepared and served by members of the Chester church.

Crucible To Hold Technical Forum On New Equipment

The Crucible Steel Co. will hold a technical forum and plant visit at its Midland Works Thursday morning to view operation and discuss the technical significance of the Crucible D-H Unit.

Guests from Pittsburgh will leave the Hilton Hotel at 8:30 a. m. by chartered buses and arrive at the Midland Works at 10.

The morning program includes welcome by W. E. Gregg, vice president of operations, introduction to the Midland Works by G. M. Burrier, works manager, a brief description of the D-H Unit by W. C. Kollmann, superintendent of the melt shop, inspection of vacuum arc melting facilities for titanium and steels and viewing the D-H unit in operation handling a full heat of steel.

There will be a luncheon and buffet dinner at the Beaver Valley Country Club at Beaver Falls.

During the afternoon technical program, Joel Hunter, president, or L. L. Ferrall, executive vice president, will give the introduction. E. A. March, director of technology, will tell of the importance of vacuum technology in the future of steel and later the commercial importance of the Crucible D-H unit.

Job Picture Brightens In Three Areas

CHARLESTON (AP) — Job prospects are a bit brighter in three major West Virginia market areas.

But the summer school recess could put a damper on things.

The State Employment Service said a survey showed there should be a slight employment expansion within the next few months in the Charleston, Huntington-Ashland-Ironton and Wheeling-Bridgeport, Ohio, areas.

Recall of furloughed factory workers, with scattered seasonal employment gains in other businesses should help.

But the release of teachers and students from school will add to the surplus labor market and make job competition tougher, the survey showed.

Unemployment showed slight gains in the Charleston area during a two-month period ended last mid-March and the total of jobless exceeded a year ago by 1,350, the service said.

The jobless rolls were cut by 1,500 during the same period in the Wheeling-Bridgeport area due to area residents leaving for jobs in other sections and the recall of furloughed workers.

Bringing Up A Family

Parents Can Control TV Violence

No other country in the world permits the gore and horror we allow in our television screens and no other one has our rate of juvenile delinquency. Recently the police commissioner of New York City reported that crime there was up for the seventh straight year, with the steepest climb in the ranks of the young. Up 7 per cent were the arrests of those under 16 and 9 per cent those between 16 and 20. From early infancy these children seem to have been conditioned to violence and to consider it the normal way of life and, mind you, it's the children from two years of age and upwards who are the most eager viewers of violence and most ready to suppose it's right.

Dr. Garry Meyers

—:—

WHILE SALES of TV films abroad are booming, strong resistance to their violence is developing. Australia has already barred 42 U. S. TV films and required cuts in 1,594 additional films. Objections to brawling and shooting in U. S. programs are coming from Sweden, Japan and other countries. John Crosby reports that the French "will have nothing to do with our violent TV films."

Since money seems to be the chief motive for producing films of violence, resistance by foreign purchasers might have some effect and imagine what might happen if parents of our nation were to begin now with the tot to forbid his viewing programs of violence.

It's hard to imagine when you count the parents you know who have done so. Most of them have been so brainwashed by the broadcasting officials (aided and abetted by virtual silence from the pulpit and educational press) as to suppose TV programs of violence can't harm children.

—:—

OF THOSE PARENTS who would like to forbid their children's viewing such programs, most don't suppose they are able to do so. For years they have been brainwashed by the so-called experts on child - rearing to trust soley to persuasion and diversion to control their children.

So when an occasional spokesman for the broadcasting company admits that constant exposure to violence might not be wholesome for children, he knows he can strongly urge parents to control what their children may view, without reducing the number of homeviewers of programs, however violent, which net most revenue.

Until we get a Federal Communications Commission made up of men with a deep sense of public responsibility, the remaining hope seems to be that parents will turn their backs against the prophets of restraints-to-the winds and resolve to train their tots in healthy regard for the little word No.

My bulletin "How to Teach Child Meaning of No," and my reprints, "Our Children, TV and the Church," may be had by sending a self - addressed stamped envelope to me in care of this newspaper.

How Can I?

By ANNE ASHLEY

Q. Do you have a suggestion for the easy removal of old wallpaper?

A. Try using a strong solution of sal-soda and water, boiling this mixture, and applying to the paper while hot. After a few applications, the soda will eat through the glue side, and the paper will peel off.

Q. How can I remove old varnish from furniture that is to be refinished?

A. Put three tablespoonfuls of cooking soda into a quart of water and apply generously with a rough cloth. Sandpaper will then remove the varnish very easily.

Q. How can I avoid the unpleasant taste of castor oil?

A. By beating it with the white of an egg until both are thoroughly mixed. Also, it is more palatable if taken very cold.

New York Upset Over 'Emmy' Film Clips

"How can we ignore the fact that 80 per cent of all television in on film?" asks Bob Henry, producer of next Tuesday's Emmy Award special on NBC. Henry's rather plaintive plea is in defense of his and the TV Academy's decision to put virtually all of the entertainment portions of the awards show on film.

Hal Humphrey

There will be a couple of minutes of "Dennis the Menace" specially produced for the Emmy occasion. Art Linkletter has filmed some interviews with kids on the subject of TV.

Lola (Peter Gunn) Albright, Amanda (Gunsmoke) Blake and Dorothy (Roaring '20s) Provine are involved in a film segment expressing a lament for the neglected girl friends of TV's heroes.

Bob (Eliot Ness) Stack, Huckleberry Hound and Yogi Bear, Dwayne (Dobie Gillis) Hickman, the boys (Tod and Buz) from "Route 66' and two characters (Hoss and Ben Cartwright) from "Bonanza" all have filmed special turns for the Emmy hijinks.

-:-

PRODUCER HENRY has accumulated about 30 minutes of this folderol, leaving him 60 minutes for the various presenters to hand out 24 Emmy statues, plus a "trustees' award" for the Kennedy - Nixon TV debates. Nixon even may be on hand to pick up this prize for himself and his former opponent, who will be busy elsewhere that night.

The decision to film all of the entertainment side of the Emmy show didn't set well with the TV Academy's New York contingent. The way things are shaping up, that end of the program from New York's Ziegfeld Theater will be comprised of Joey Bishop, the emcee, and Huntley-Brinkley, who are a cinch to win the "news" Emmy.

Dick Powell is the emcee for the Hollywood end of the show. Producer Henry couldn't face up to having comics on both ends of the microwave competing for laughs. Every producer remembers three years ago when Uncle Milty Berle stayed on for 9 minutes, auditioning for another chance to do TV.

-:-

HENRY ALREADY has been beset by the usual sponsor problems that attend an Emmy telecast. Lever Bros. "preferred" that their Jack Benny not take part this year because another soapmaker (Procter & Gamble) is sponsoring the show. Jack will be allowed to accept an Emmy on camera, however, should he happen to win the one for "humor."

Ed Sullivan, a past president of the TV Academy, won't have to show up at all. He hasn't been nominated in any Emmy category, and his sponsors (Colgate) feels the same way about Procter & Gamble as Lever Bros. No wonder Lawrence Welk refuses to say what brand of soap he uses in his bubble machine!

Another of Henry's problems is how to inject a little glamour into the proceedings. Dennis the Menace, let's face it, is no match for Burt Lancaster, and the demure Donna Reed is no Liz Taylor. The sponsor is replacing Ida Lupino, who demonstrated its hair wave for the Oscar show, with Jane Wyatt for the TV Emmy show.

-:-

INGRID BERGMAN is an Emmy nominee, but she usually is in Europe or on her way there and isn't likely to be around for the Emmy shindig. Even if she were, would the sponsor want the glamorous and much - talked - about Swede on his show?

Producer Henry is taking a chance with that film skit involving Lola Albright, Amanda Blake and Dorothy Provine. Lola and Dorothy sing in night clubs and don't seem to be the type of girls who go right home afterward. Amanda runs that Longbranch saloon in "Gunsmoke" and lives upstairs, if memory serves me right.

Things might have been a little more exciting if Art Linkletter had done his interviews with the kids about TV before "live" cameras. But some wiser industry head, when I suggested these things, said:

"Don't forget that the sponsor and the networks have millions of dollars riding on a show like this, and it's important that everyone's image remain right. Right?"

"Right!"

Dear friends,

Recently we were asked if a person could make advance arrangements for his funeral . . . select the desired vault and casket, determine details of the funeral, and place the required funds for that purpose in a local bank.

Such pre-arrangement of funerals is feasible and we offer to explain the details to anyone interested.

Respectfully,

Harry L. Martin

New York Upset Over 'Emmy' Film Clips

"How can we ignore the fact that 80 per cent of all television in on film?" asks Bob Henry, producer of next Tuesday's Emmy Award special on NBC. Henry's rather plaintive plea is in defense of his and the TV Academy's decision to put virtually all of the entertainment portions of the awards show on film.

Hal Humphrey

There will be a couple of minutes of "Dennis the Menace" specially produced for the Emmy occasion. Art Linkletter has filmed some interviews with kids on the subject of TV.

Lola (Peter Gunn) Albright, Amanda (Gunsmoke) Blake and Dorothy (Roaring '20s) Provine are involved in a film segment expressing a lament for the neglected girl friends of TV's heroes.

Bob (Eliot Ness) Stack, Huckleberry Hound and Yogi Bear, Dwayne (Dobie Gillis) Hickman, the boys (Tod and Buz) from "Route 66' and two characters (Hoss and Ben Cartwright) from "Bonanza" all have filmed special turns for the Emmy hijinks.

-:-

PRODUCER HENRY has accumulated about 30 minutes of this folderol, leaving him 60 minutes for the various presenters to hand out 24 Emmy statues, plus a "trustees' award" for the Kennedy - Nixon TV debates. Nixon even may be on hand to pick up this prize for himself and his former opponent, who will be busy elsewhere that night.

The decision to film all of the entertainment side of the Emmy show didn't set well with the TV Academy's New York contingent. The way things are shaping up, that end of the program from New York's Ziegfeld Theater will be comprised of Joey Bishop, the emcee, and Huntley-Brinkley, who are a cinch to win the "news" Emmy.

Dick Powell is the emcee for the Hollywood end of the show. Producer Henry couldn't face up to having comics on both ends of the microwave competing for laughs. Every producer remembers three years ago when Uncle Milty Berle stayed on for 9 minutes, auditioning for another chance to do TV.

-:-

HENRY ALREADY has been beset by the usual sponsor problems that attend an Emmy telecast. Lever Bros. "preferred" that their Jack Benny not take part this year because another soapmaker (Procter & Gamble) is sponsoring the show. Jack will be allowed to accept an Emmy on camera, however, should he happen to win the one for "humor."

Another of Henry's problems is how to inject a little glamour into the proceedings. Dennis the Menace, let's face it, is no match for Burt Lancaster, and the demure Donna Reed is no Liz Taylor. The sponsor is replacing Ida Lupino, who demonstrated its hair wave for the Oscar show, with Jane Wyatt for the TV Emmy show.

-:-

INGRID BERGMAN is an Emmy nominee, but she usually is in Europe or on her way there and isn't likely to be around for the Emmy shindig. Even if she were, would the sponsor want the glamorous and much - talked - about Swede on his show?

Producer Henry is taking a chance with that film skit involving Lola Albright, Amanda Blake and Dorothy Provine. Lola and Dorothy sing in night clubs and don't seem to be the type of girls who go right home afterward. Amanda runs that Longbranch saloon in "Gunsmoke" and lives upstairs, if memory serves me right.

Dear friends,

Recently we were asked if a person could make advance arrangements for his funeral . . . select the desired vault and casket, determine details of the funeral, and place the required funds for that purpose in a local bank.

Such pre-arrangement of funerals is feasible and we offer to explain the details to anyone interested.

Respectfully,

Harry L. Martin

Ann Landers

ANSWERS YOUR PROBLEMS

Dear Ann Landers: I used to think your column was only for women but I see almost as many letters from men so I decided to write for an opinion.

I've been married for nine years to a woman who still wears a Phi Beta Kappa key around her neck. It wouldn't be so bad, except her neck is usually dirty.

Our home was brand new when we moved into it. The furniture was lovely. Now the place looks like a barn. She never has anything repaired, replaced, recovered or cleaned.

She says housework is for horses. In the meantime, the dishes are washed with the same rag she uses on the floor. Then she leaves the rag wadded up in the corner of the sink. I told her she can take a job downtown and hire a housekeeper but she says no, she must stay at home and write the great American novel.

What can I do? — STUCK.

-:-

Dear Stuck: If you can possibly afford it, hire a housekeeper or a day woman. Tell "Edna Ferber" the dirt may not bother her but you're tired of looking at it.

Give the housekeeper permission to have the drapes cleaned, the furniture shampooed and do whatever needs to be done to keep the place up. There's no reason why you should have to live like a pig just because your wife is a slob.

From Clothes Crazy

Dear Ann: Our 14-year-old daughter is clothes crazy. She refuses to go to school wearing the same outfit within any given week. Every morning she's on the phone with girl friends, saying: "What are you wearing today?"

Lately she has started to exchange skirts, sweaters and blouses with her friends. She has a closet full of clothes but claims she doesn't have enough variety.

When I ask her about certain skirts and dresses she says they are too small, too long or too something else.

Please tell me what to do before I lose my temper and send her to a girls' school in a uniform.—S.N.

-:-

Dear S.N.: Most girls go through such a stage but your daughter is overdoing it.

Devote an evening to her wardrobe. Let her model everything, then decide what is "too small, too long . . . etc." It could be she has a point. Put an end to the borrowing. Insist that she make do with what she has.

The following letter may be a bit of a consolation.

To Primitive Urge

Dear Ann: Our daughter will soon be 15 and we can't get her out of the trees long enough to get a dress on her. I'd be so happy if she'd go downtown and buy some clothes. But she says "I have enough" and back she goes into her jeans.

She is completely without taste when it comes to getting herself together. She'd wear a pair of sneakers with a satin dinner dress if I didn't tell her it wasn't correct.

I don't want her to pay too much attention to clothes but how can I get her to look presentable? — DISTRESSED ... ...

-:-

Dear Distressed: If a girl 15 doesn't know that sneakers don't go with satin you're fighting a difficult battle. Tell her you don't expect her to be a clothes horse; just a nicely tailored filly, will do.

Compliment her when she looks nice but don't nag when she doesn't. She may be rebelling against you, Mom.

Ann Landers will be glad to help you with your prolems. Send them to her in care of The Review, enclosing a stamped, self-addressed envelope.

Fashionable Waistline Sizes Vary

The waist is the line of least resistance to embonpoint. As everybody knows, if you give the fat an inch, it soon takes over the waistline... and the more inches, the more matronly.

Ida Jean Kain

To get the picture of how the waist wanders, it is important to understand the way the oblique muscles of the abdomen shape the waistline. When these muscles, which cover the side front of the abdomen, lose tone the waist loses its clearly defined line. Waist-whittling then must start with the girdle muscles.

There's real incentive to exercise when you are working toward the goal of recapturing the waistline. Whip out the tape and measure. In taking the abdominal measurement circle tape around the body to include the furthest outcurve of the abdomen as viewed from the side.

—:—

CIRCLE THE waistline. Draw tape snugly, then let it out an inch. The trouble with drawing it too tightly is that your exercise progress will seem slower!

With a formula to go by, you will be able to figure what your waist and abdominal measurement should be in your right dress size. Since size 14 is popular in misses' sizes and size 34 in women's sizes, we'll use them as our base line.

	Size 14	Size 34
Waist	27	29
Abdomen	34¼	36¾

In the Scientific Sizing System, in Misses' dresses there is a 1½ inch difference both in the waist and abdominal extension between sizes. In women's sizes, up to 38, there is a 2-inch difference in the waist and abdominal measurements. using this as a basis, figure up or down to find your desirable waist and abdominal measurements.

Where does exercise fit in? A clearly - defined waist is not a matter of weight alone, but of muscle tone.

The folowing exercise is my favorite for toning both girdle and waistline muscles. Position: Stand on knees and sit back on heels. Have arms out at sides, shoulder level. Pull snugly up-and-in with the girde muscles and hold this muscle contraction throughout the exercise.

Action: Bend slowly to the right, aiming to touch fingers of right hand to floor. Do not crumple through the middle or let hips bow rearward.

—:—

KEEP THAT strong up-and-in pull. Come back to center and bend slowly to the left. On the next bend, try to make a far reach with the opposite hand to accent the bias stretch.

When you get the knack of doing this exercise, bring the body slightly off your heels as you stretch, forcing the middle muscles to take the lifting action. Done correctly, this exercise is a real toner-upper.

Send a long, self - addressed, stamped envelope for "Away With Middle Spread." Address your request to Ida Jean Kain, in care of this newspaper. Postcard requests cannot be answered.

Art And Horses On Jacqueline's Foreign Agenda

WASHINGTON (AP) — Two things Jacqueline Kennedy likes best—art and horses—are on the schedule for her first official foreign trip with the President.

The Kennedys' fast 2½ day visit to Ottawa next week is the forerunner of a similar trip to Paris later in the month.

The Canadian trip is typical of state visits and includes a presidential address to both houses of Parliament. For much of it, including two formal state dinners and a reception, both the President and Mrs. Kennedy will follow the same schedule.

Mrs. Kennedy will take a brief look, on her own, at Canada's National Gallery and watch a drill by the famed Royal Canadian Mounted Police.

Canadian spokesmen say the timing of the Kennedy's trip will give them a chance to see one of the spectacular sights of Ottawa—more than a million tulips in bloom.

For Mrs. Kennedy, who speaks fluent French, Canada presents another opportunity to shine in the language field. Many Canadians are of French origin, and both English and French are considered official languages.

The President and his wife are due in Ottawa by plane late next Tuesday afternoon. They will stay at famous Rideau Hall, the residence of Canada's Governor General George P. Vanier.

'New' Nixon Due Tonight In Columbus

DETROIT (AP) — There is a new Richard M. Nixon politicking about the land.

It's a Nixon most people never saw, a Nixon relaxed and quick with the wisecrack.

Nixon moves on to Columbus, Ohio, to wind up his weeklong tour tonight. Although he will continue to whack away at Democrats, he may occasionally drop the deadly seriousness that has become almost a Nixon trademark.

You will remember the tone of the last presidential campaign. Grim was the word for John F. Kennedy, even grimmer were the words for Richard M. Nixon.

What jesting there was usually came in set jokes or comments that were repeated over and over in town after town.

Nixon still follows that pattern. But the former vice president shows he also has unrehearsed flashes of humor.

Tuesday at a Detroit Press Club news conference Nixon was asked the inevitable question: Has he closed the door on running for governor of California in 1962?

"The answer is yes," Nixon said with a grin, "but many people in California are saying, 'Open the door, Richard.'"

This is the title of a vaudeville song popular a dozen or more years ago. It brought an appreciative laugh.

Nixon is fresh from defeat. He says he isn't running for anything. The next presidential race is far off.

There are no bands for Nixon, few banners, no parades.

But the crowds have been large, and the talk sounds like midseason campaign talk.

Ann Landers

ANSWERS YOUR PROBLEMS

Dear Ann Landers: I used to think your column was only for women but I see almost as many letters from men so I decided to write for an opinion.

I've been married for nine years to a woman who still wears a Phi Beta Kappa key around her neck. It wouldn't be so bad, except her neck is usually dirty.

Our home was brand new when we moved into it. The furniture was lovely. Now the place looks like a barn. She never has anything repaired, replaced, recovered or cleaned.

She says housework is for horses. In the meantime, the dishes are washed with the same rag she uses on the floor. Then she leaves the rag wadded up in the corner of the sink. I told her she can take a job downtown and hire a housekeeper but she says no, she must stay at home and write the great American novel.

What can I do? — STUCK.

-:-

Dear Stuck: If you can possibly afford it, hire a housekeeper or a day woman. Tell "Edna Ferber" the dirt may not bother her but you're tired of looking at it.

Give the housekeeper permission to have the drapes cleaned, the furniture shampooed and do whatever needs to be done to keep the place up. There's no reason why you should have to live like a pig just because your wife is a slob.

From Clothes Crazy

Dear Ann: Our 14-year-old daughter is clothes crazy. She refuses to go to school wearing the same outfit within any given week. Every morning she's on the phone with girl friends, saying: "What are you wearing today?"

Lately she has started to exchange skirts, sweaters and blouses with her friends. She has a closet full of clothes but claims she doesn't have enough variety.

When I ask her about certain skirts and dresses she says they are too small, too long or too something else.

Please tell me what to do before I lose my temper and send her to a girls' school in a uniform.—S.N.

-:-

Dear S.N.: Most girls go through such a stage but your daughter is overdoing it.

Devote an evening to her wardrobe. Let her model everything, then decide what is "too small, too long . . . etc." It could be she has a point. Put an end to the borrowing. Insist that she make do with what she has.

The following letter may be a bit of a consolation.

To Primitive Urge

Dear Ann: Our daughter will soon be 15 and we can't get her out of the trees long enough to get a dress on her. I'd be so happy if she'd go downtown and buy some clothes. But she says "I have enough" and back she goes into her jeans.

She is completely without taste when it comes to getting herself together. She'd wear a pair of sneakers with a satin dinner dress if I didn't tell her it wasn't correct.

I don't want her to pay too much attention to clothes but how can I get her to look presentable? — DISTRESSED ... ...

-:-

Dear Distressed: If a girl 15 doesn't know that sneakers don't go with satin you're fighting a difficult battle. Tell her you don't expect her to be a clothes horse; just a nicely tailored filly, will do.

Compliment her when she looks nice but don't nag when she doesn't. She may be rebelling against you, Mom.

Ann Landers will be glad to help you with your prolems. Send them to her in care of The Review, enclosing a stamped, self-addressed envelope.

WELL - SUITED. There's barely room for embroidery that trims a brief white cotton bikini swimsuit, shown by Kestos-Vahine in the beachwear collection for 1961 in Paris. It's topped by matching jacket.

Keep In Trim

By IDA JEAN KAIN

Fashionable Waistline Sizes Vary

The waist is the line of least resistance to embonpoint. As everybody knows, if you give the fat an inch, it soon takes over the waistline... and the more inches, the more matronly.

Ida Jean Kain

To get the picture of how the waist wanders, it is important to understand the way the oblique muscles of the abdomen shape the waistline. When these muscles, which cover the side front of the abdomen, lose tone the waist loses its clearly defined line. Waist-whittling then must start with the girdle muscles.

There's real incentive to exercise when you are working toward the goal of recapturing the waistline. Whip out the tape and measure. In taking the abdominal measurement circle tape around the body to include the furthest outcurve of the abdomen as viewed from the side.

—:—

CIRCLE THE waistline. Draw tape snugly, then let it out an inch. The trouble with drawing it too tightly is that your exercise progress will seem slower!

With a formula to go by, you will be able to figure what your waist and abdominal measurement should be in your right dress size. Since size 14 is popular in misses' sizes and size 34 in women's sizes, we'll use them as our base line.

	Size 14	Size 34
Waist	27	29
Abdomen	34¼	36¾

In the Scientific Sizing System, in Misses' dresses there is a 1½ inch difference both in the waist and abdominal extension between sizes. In women's sizes, up to 38, there is a 2-inch difference in the waist and abdominal measurements. using this as a basis, figure up or down to find your desirable waist and abdominal measurements.

Where does exercise fit in? A clearly - defined waist is not a matter of weight alone, but of muscle tone.

The folowing exercise is my favorite for toning both girdle and waistline muscles. Position: Stand on knees and sit back on heels. Have arms out at sides, shoulder level. Pull snugly up-and-in with the girde muscles and hold this muscle contraction throughout the exercise.

Action: Bend slowly to the right, aiming to touch fingers of right hand to floor. Do not crumple through the middle or let hips bow rearward.

—:—

KEEP THAT strong up-and-in pull. Come back to center and bend slowly to the left. On the next bend, try to make a far reach with the opposite hand to accent the bias stretch.

When you get the knack of doing this exercise, bring the body slightly off your heels as you stretch, forcing the middle muscles to take the lifting action. Done correctly, this exercise is a real toner-upper.

Send a long, self - addressed, stamped envelope for "Away With Middle Spread." Address your request to Ida Jean Kain, in care of this newspaper. Postcard requests cannot be answered.

Art And Horses On Jacqueline's Foreign Agenda

WASHINGTON (AP) — Two things Jacqueline Kennedy likes best—art and horses—are on the schedule for her first official foreign trip with the President.

The Kennedys' fast 2½ day visit to Ottawa next week is the forerunner of a similar trip to Paris later in the month.

The Canadian trip is typical of state visits and includes a presidential address to both houses of Parliament. For much of it, including two formal state dinners and a reception, both the President and Mrs. Kennedy will follow the same schedule.

Mrs. Kennedy will take a brief look, on her own, at Canada's National Gallery and watch a drill by the famed Royal Canadian Mounted Police.

Canadian spokesmen say the timing of the Kennedy's trip will give them a chance to see one of the spectacular sights of Ottawa—more than a million tulips in bloom.

For Mrs. Kennedy, who speaks fluent French, Canada presents another opportunity to shine in the language field. Many Canadians are of French origin, and both English and French are considered official languages.

The President and his wife are due in Ottawa by plane late next Tuesday afternoon. They will stay at famous Rideau Hall, the residence of Canada's Governor General George P. Vanier.

The two-year contract with the company expires next May 1, but the union had the right to reopen on the wage issue alone this year. CEI had offered to arbitrate the wage increase and agreed to pay it retroactive to May 1.

'New' Nixon Due Tonight In Columbus

DETROIT (AP) — There is a new Richard M. Nixon politicking about the land.

It's a Nixon most people never saw, a Nixon relaxed and quick with the wisecrack.

Nixon moves on to Columbus, Ohio, to wind up his weeklong tour tonight. Although he will continue to whack away at Democrats, he may occasionally drop the deadly seriousness that has become almost a Nixon trademark.

You will remember the tone of the last presidential campaign. Grim was the word for John F. Kennedy, even grimmer were the words for Richard M. Nixon.

What jesting there was usually came in set jokes or comments that were repeated over and over in town after town.

Nixon still follows that pattern. But the former vice president shows he also has unrehearsed flashes of humor.

Tuesday at a Detroit Press Club news conference Nixon was asked the inevitable question: Has he closed the door on running for governor of California in 1962?

"The answer is yes," Nixon said with a grin, "but many people in California are saying, 'Open the door, Richard.'"

This is the title of a vaudeville song popular a dozen or more years ago. It brought an appreciative laugh.

Nixon is fresh from defeat. He says he isn't running for anything. The next presidential race is far off.

There are no bands for Nixon, few banners, no parades.

But the crowds have been large, and the talk sounds like midseason campaign talk.

2 Cameras Installed To Prevent Robberies

COLUMBUS, Ohio (AP)—State Treasurer Joseph E. Ferguson has installed two cameras in the cashier's section of his office in the hope of deterring any robbery attempt. The cameras, rented for $20.50 a month, are intended to take pictures of persons at the two cashier windows when cashiers activate electronic switches.

No unusual motion is needed to activate the switches, Ferguson said. The treasurer said he believes it is the first installation of its kind in any treasurer's office.

Plant Gets Approval

HURON, Ohio (AP)—The Huron Twp. Zoning Commission Tuesday approved construction by E. I. duPont deNemours & Co. of a multimillion-dollar plant for the production of methanol. The plant, to employ about 35, is to be built on a 600-acre site on the east bank of the Huron River, about three miles south of the city of Huron.

Mechanic Crushed In Working On Car

CLEVELAND (AP) — An East Side mechanic died in St. Luke's Hospital Tuesday after an automobile on which he was working crushed him against a workbench. The victim was James D. Merrell, 31, who was standing in front of the car, bent over the running engine.

His brother, Dan, owner of the shop where the accident occurred, told police: "The transmission must have fallen into gear because the car just jumped forward and smashed him."

Kentuckian Believes In Liberal Education

LOUISVILLE, Ky. (AP)—James E. Wingfield believes in liberal education.

He received his ministerial bachelor's degree Tuesday night from Louisville Bible College. He was the school's only graduate.

He had already earned law and chemistry degrees—in addition to a two-year electronics correspondence certificate.

Now he will strive for a doctor of divinity degree.

The contract provides for a 7-cent hourly wage increase, effective immediately, plus an additional 10 cents next April 1, and another 10-cent increase April 1, 1963. There were no added fringe benefits.

The new base rate will be $3.69½ cents an hour.

2 Men Are Indicted On Morals Charges

PITTSBURGH (AP) — A federal grand jury has indicted two men on charges of transporting a 20-year - old girl from Steubenville, Ohio, to Donora, Pa., for immoral purposes.

Indicted Tuesday were Oswalt Romeneto, 38, operator of the First Street Hotel in Donora, and Richard H. Rink, 30, of Wellsburg, W. Va.

The government accused them of working together to bring the girl to Donora in November, 1959, to work at the hotel.

Its Chances Are One In Four

Here's How An Ohio Law Is Born

By HOWARD THOMPSON
Columbus Dispatch Reporter

COUMBUS, Ohio (AP)—You say, "There should be a law." That's easier said than done, judging from the past records in the Ohio General Assembly. These records give a bill—the seed that eventually may grow into a law—one in four chances of becoming a part of Ohio's statutes.

A bill faces many pitfalls between the time it is introduced in either the House of Representatives or the Senate and when it finally becomes law.

In the regular session of the 103rd General Assembly in 1959, the legislators introduced 1,607 bills. Only 374 of them were enacted into law. It was a similar story in 1957, when 1,384 bills were submitted and 332 of them became law.

At introduction a bill gets a number—such as (House Bill) HB-121 if in the House or (Senate Bill) SB-321 if in the Senate. This identifying number follows the measure all the way through the legislative mill. As far as it goes, that it. Sometimes the numbers of those that become law are used to refer to them even after they become law.

The road starts getting rough for a bill immediately after introduction and the first reading in the house of origin.

The Ohio Constitution requires that all bills be read "fully and distinctly" on three different days, unless, in case of urgency, three-fourths of the House in which it is pending decide to dispense with this rule.

Because it is presumed all members have already or will read all bills—and in most cases they do—this time-consuming constitutional requirement is waived in both houses, and the bills are read by titles only at three different times, if they ever reach all of those stages.

Because of the numerous traps—the same in both houses, with one exception — bills quite frequently never get beyond the first or second reading in either house.

There is one difference between the Senate and the House in the reference of bills to standing committees for hearings.

In the House, the bill automatically goes to the Reference Committee after introduction and first reading. This committee has life and death power over legislation there. It can send it to an apparently unfriendly or friendly committee or hold it until it is too late to get full hearing before one of the 19 other standings committees in the House.

The reference procedure is simpler in the Senate. Bills there are referred to any of the 10 standing committees upon motion of the Senate majority leader.

From that time on, it is up to the respective committee chairmen whether there will be any hearing on it.

These standing committees in the houses are the graveyards for a major part of the 75 per cent fatality among bills introduced.

It is before the standing committees that the public, lobbyists, associations and other interested persons and groups get their only chances to speak for or against the proposed laws.

Too, it is there that committee members have their opportunities to study, revise, or, in many case completely rewrite a measure into a substitute bill. Frequently, bills on similar subjects are combined into one in these committees.

If a majority of the committee members agree, a bill is recommended to the respective house for floor action. If not, the bill usually falls by the wayside.

After committee approval, a bill comes up to another high hurdle—the Rules Committee of the appropriate house.

The Rules Committees of the two houses, presided over by the majority party leaders and dominated by majority party members, are probably the most powerful in the legislature.

The formers of policy of the majority party, the committees say if and when a measure shall be placed before the entire membership of their respective houses for a floor vote. Many bills never see the light again after they reach the Rules Committee.

If it is fortunate enough to get the Rules Committee's blessing and is placed on the calender for a floor vote, a bill could still become snarled in parliamentary procedure or stiff opposition that could detour it to the junk heap.

Even after a bill succeeds in getting approval of one house, it then must go through similar procedures in the other house, confronting the same—maybe more—hazards than it did in the house of origin.

The voting procedure is much faster in the House than in the Senate of the Ohio Legislature.

The Senate votes verbally by its 38 members.

The House, with 139 members, uses a speedier electric roll call system. Individual members cast their votes by means of a toggle switch on each desk. These are recorded—green for "yes" and red for "no"—beside the members' name on large roll call boards, one on each side of the house. The votes are totaled automatically.

A majority of the elected members is required in both house on bills that would become law 90 days after approval by the governor, or on tax and general appropriations measures. On emergency bills, to become law immediately after approval by the governor, a two-thirds vote is required.

Both houses must approve a bill before it becomes an act, is signed by presiding officers—the speaker of the House, the lieutenant governor in the Senate—and is sent to the governor.

The governor may approve, veto or refuse to sign within 10 days. In the latter case, the act becomes law without his signature.

If the governor vetoes an act, he sends it back to the legislators, who have to muster a three-fifths vote of the elected members of both houses to override the veto.

If a governor approves an act or allow it to become law without his signature, or if one is passed over his veto, it is filed with the secretary of state and—

Hays Attacks Policy Of Furnishing Arms

DELAWARE — America cannot win the fight against communism by sending arms to every underdeveloped country on the theory that these nations would be on our side if a showdown came, an Ohio Democratic congressman said Monday.

Rep. Wayne L. Hays of the 18th District made the comment here as featured speaker of Ohio Wesleyan University's annual Democratic day.

Hays and William L. Coleman, state Democratic chairman, received Ben A. Arneson outstanding service awards for their work in politics.

"America must attack the social problems existing in the world which permit communism to flourish," Hays said.

CHICAGO (AP) — Al Heist hit one home run in 102 trips to the plate as a 33-year-old rookie outfielder with the Chicago Cubs. With the bases loaded and two out in the ninth inning, this spring, Heist drove Milwaukee pitcher Don Nottebart's second toss into the left field seats. It gave the Cubs a 9-5 victory over the Braves.

OSU Conducts Survey About Roast Beef

COLUMBUS, Ohio (AP) — For about five years now, Ohio State University has been conducting research with roast beef.

Home economists are trying to determine how various sizes of roast and cooking temperatures affect yield, tenderness, flavor and preparation time.

Miss LeVelle Wood, project leader, says the information will be important to restaurants, hospitals and other food service operations interested in using less expensive cuts of meat while maintaining good quality.

Its Chances Are One In Four

Here's How An Ohio Law Is Born

By HOWARD THOMPSON
Columbus Dispatch Reporter

COLUMBUS, Ohio (AP)—You say, "There should be a law." That's easier said than done, judging from the past records in the Ohio General Assembly. These records give a bill—the seed that eventually may grow into a law—one in four chances of becoming a part of Ohio's statutes.

A bill faces many pitfalls between the time it is introduced in either the House of Representatives or the Senate and when it finally becomes law.

In the regular session of the 103rd General Assembly in 1959, the legislators introduced 1,607 bills. Only 374 of them were enacted into law. It was a similar story in 1957, when 1,384 bills were submitted and 332 of them became law.

At introduction a bill gets a number—such as (House Bill) HB-121 if in the House or (Senate Bill) SB-321 if in the Senate. This identifying number follows the measure all the way through the legislative mill. As far as it goes, that it. Sometimes the numbers of those that become law are used to refer to them even after they become law.

The road starts getting rough for a bill immediately after introduction and the first reading in the house of origin.

The Ohio Constitution requires that all bills be read "fully and distinctly" on three different days, unless, in case of urgency, three-fourths of the House in which it is pending decide to dispense with this rule.

Because it is presumed all members have already or will read all bills—and in most cases they do—this time-consuming constitutional requirement is waived in both houses, and the bills are read by titles only at three different times, if they ever reach all of those stages.

Because of the numerous traps—the same in both houses, with one exception — bills quite frequently never get beyond the first or second reading in either house.

There is one difference between the Senate and the House in the reference of bills to standing committees for hearings.

In the House, the bill automatically goes to the Reference Committee after introduction and first reading. This committee has life and death power over legislation there. It can send it to an apparently unfriendly or friendly committee or hold it until it is too late to get full hearing before one of the 19 other standings committees in the House.

The reference procedure is simpler in the Senate. Bills there are referred to any of the 10 standing committees upon motion of the Senate majority leader.

From that time on, it is up to the respective committee chairmen whether there will be any hearing on it.

These standing committees in the houses are the graveyards for a major part of the 75 per cent fatality among bills introduced.

It is before the standing committees that the public, lobbyists, associations and other interested persons and groups get their only chances to speak for or against the proposed laws.

Too, it is there that committee members have their opportunities to study, revise, or, in many case completely rewrite a measure into a substitute bill. Frequently, bills on similar subjects are combined into one in these committees.

If a majority of the committee members agree, a bill is recommended to the respective house for floor action. If not, the bill usually falls by the wayside.

After committee approval, a bill comes up to another high hurdle—the Rules Committee of the appropriate house.

The Rules Committees of the two houses, presided over by the majority party leaders and dominated by majority party members, are probably the most powerful in the legislature.

The formers of policy of the majority party, the committees say if and when a measure shall be placed before the entire membership of their respective houses for a floor vote. Many bills never see the light again after they reach the Rules Committee.

If it is fortunate enough to get the Rules Committee's blessing and is placed on the calender for a floor vote, a bill could still become snarled in parliamentary procedure or stiff opposition that could detour it to the junk heap.

Even after a bill succeeds in getting approval of one house, it then must go through similar procedures in the other house, confronting the same—maybe more—hazards than it did in the house of origin.

The voting procedure is much faster in the House than in the Senate of the Ohio Legislature.

The Senate votes verbally by its 38 members.

The House, with 139 members, uses a speedier electric roll call system. Individual members cast their votes by means of a toggle switch on each desk. These are recorded—green for "yes" and red for "no"—beside the members' name on large roll call boards, one on each side of the house. The votes are totaled automatically.

A majority of the elected members is required in both house on bills that would become law 90 days after approval by the governor, or on tax and general appropriations measures. On emergency bills, to become law immediately after approval by the governor, a two-thirds vote is required.

The governor may approve, veto or refuse to sign within 10 days. In the latter case, the act becomes law without his signature.

If the governor vetoes an act, he sends it back to the legislators, who have to muster a three-fifths vote of the elected members of both houses to override the veto.

If a governor approves an act or allow it to become law without his signature, or if one is passed over his veto, it is filed with the secretary of state and—
